

Hardy line crews last week blasted post holes through frozen mud and started laying wires on the second lap of the **LONGEST OPEN-WIRE TELEPHONE** circuit in the world. Already 1,580 miles of the circuit, from Edmonton, Alberta, to **WHITEHORSE** in the Yukon, is in use by the United States Army. The next 600-mile lap of the Army Signal Corps telephone circuit will bring the military in **FAIRBANKS**, Alaska, in phone communication with Army headquarters. Lines on the newly opened circuit straddled racing streams and followed ridges on a route nearly parallel the new **ALCAN HIGHWAY**. It traverses almost uninhabited wilderness along its 1,580-mile route.

Defence Minister Ralston said in the House of Commons last week that he expected some action would be taken by the Dominion Government on **THE PROTECTION** of the civil property and interests of men in the forces. The minister said a check now was being made of provincial legislation providing such protection to see **WHAT ACTION** would be needed by the Dominion. In view of the fact the creditor, not the public, was being asked to make the adjustments, he considered it desirable that Federal authorities take **SOME RESPONSIBILITY** in the matter, with uniform action across the country if possible. The House spent most of the sitting discussing protection of **FIGHTING MEN'S PROPERTY** at home, with several advocating Canada accept provisions similar to those contained in the Sparkman Act covering United States forces.

DOMESTIC PETS may no longer accompany their owners in private room accommodation in sleeping and parlor cars when the latter are **TRAVELLING** on Canadian railways. Dogs, cats and other pets must be checked and placed in the **BAGGAGE CAR** during the train journey. This rule is now in effect and applies to travel in **SLEEPING AND PARLOR CARS** within the Dominion and on international services from stations in Canada to stations in the United States and vice versa. However, **AN EXCEPTION** is made in the case of blind patrons travelling with "seeing eye" and other dogs, who may still take such guide dogs in private room accommodation purchased by their owners.

The Ration Administration has announced that rural residents who engage **TEMPORARY HELP** or labor may secure additional supplies of rationed commodities this year. Applications by rural residents for such **EXTRA RATIONS** for threshers, silo fillers, fruit packers, tobacco gatherers, sheep shearers, wood cutters, should be made to the local ration board.

Farmers who are badly in need of **BARBED WIRE** will sigh in relief when they learn that the **W.P.T.B.** has found it possible to raise the quota of barbed wire manufacture very considerably. Increase in livestock production has resulted in a much **HEAVIER DEMAND** for the wire. Fortunately there is more material now available for the wire factories, and the quota for manufacture has been raised from 7,050 tons to 9,426 tons for the current year. This will mean something like **86,000 EXTRA REELS** of wire for farm use throughout Canada.

Farmers who haul their **OWN PRODUCE** to market are exempt from the regulation which prohibits truckers from operating their auto trucks for a distance of more than **35 MILES** from their registered address. But truckers who make a business of hauling farm produce for farmers will need a **SPECIAL PERMIT** to drive their trucks beyond the 35-mile limit, and now that spring is here once more, with the movement of farm produce by truck becoming heavier, truckers are reminded of the 35-mile regulation.

Resignation of **G. H. SALLANS**, of Montreal, as Director of Public Relations (Army), and the appointment of Lt.-Col. Frank Jennings, of Saint John, N.B., as Director, was announced last week by Defence Minister Ralston. The change will become effective about the middle of June. Mr. Sallans will resume his duties as general news manager of **BRITISH UNITED PRESS**, at Montreal. He had been on loan to carry out reorganization within the directorate. Mr. Sallans is returning to his civilian position at his own request, the Army said. Colonel Jennings came from Saint John to the directorate in February as Chief Public Relations Officer. He is **EDITOR-IN-CHIEF** of The Saint John Telegraph-Journal and Evening Times Globe, from which he is on leave.

HON. E. C. MANNING was elected Premier of Alberta at a Social Credit caucus held at Edmonton last Monday. The new leader, who succeeds the late Premier Aberhart, is 35 years of age and entered the government in 1935. His choice as Alberta's new premier revives discussion of certain changes in the province's **DEBT POLICY**. Alberta has shown a surplus during the past few years and advises indicate that interest on provincial bonds may soon be paid in full and the bond issues **REFUNDED** at a lower rate of interest.

On Monday a **FURTHER REDUCTION** in the amount of spirits was announced by W. F. Kennedy, B.C. Liquor Control Board chairman. In future permit holders will be entitled to only **13 OUNCES** of hard liquor per month. Owing to a large number of larger containers of 26 and 40 ounces capacity, permit holders may buy the larger sizes and have their permits stamped for **TWO OR THREE MONTHS** capacity respectively. Although consumption of spirits is curtailed, the quota on beer and wine has been increased. The beer quota has **BEEN DOUBLED** to a monthly ration of two dozen pints, and two quarts of imported or one gallon of domestic wine can be purchased.

The Canadian delegation to the United Nations' conference on **FOOD AND AGRICULTURE** at Hot Springs, Va., is very much interested in the comprehensive program put forward by the British delegation. Although Canada's viewpoint as a producing and **EXPORTING COUNTRY** is a North American one and therefore closer to that of the United States than it is to that of the United Kingdom, nevertheless, the Canadians have made it clear they have **NO OBJECTION** to Mr. Richard Law's program. In fact, they indicate decided approval of some features of the plan, especially that part which says that those responsible for operating a buffer or balancing stock "should aim at combining a short period of stabilization of prices with a long-term price policy which balances supply and demand and allows a steady rate of expansion to efficient producers."

Ottawa Offers To Remove Pearl Harbor Japanese Forthwith If Agreeable

Will Remove Over One Hundred Men, Women And Children At Once or Not At All, Says Ottawa—No Replacements Offered—Offer Puts Committee on Spot—Japanese Are Employed by Countrymen—Duration Settlement Means "Forever," Says Eastwood

AFTER some weeks spent in deliberating the question of removal of "Pearl Harbor" Japanese from the Central Okanagan, Ottawa, through the B.C. Security Commission, notified the special labor committee on Monday that it would remove over one hundred and twelve Japanese forthwith if the committee representing the area so desired. The offer puts the committee squarely on the spot as refusal would probably result in Ottawa refusing to consider the matter further. So far the government has refused to consider delaying the removal until after the crop season and also is unresponsive to suggestions that 75 conscientious objectors be released to replace the Japanese removed.

The 112 Japanese are made up of men, women and children and are Japanese families that are at present employed by resident Japanese farmers in this district. The Commission contends that they comprise all the Japanese in question, but this is disputed by local authorities, who estimate that at least another 150 Japanese took up residence in the district between December 7, 1941, and March, 1942.

In a phone conversation last Monday, A. W. Eastwood, of the B.C. Security Commission, informed George W. Sutherland, committee chairman, that the Commission would do nothing about Japanese that have taken up residence in the district and that those Japanese who have settled on "duration" permits are here forever so far as the Commission is concerned.

Mr. Eastwood confirmed the understanding that the Coast would remain a "protected area" for "many years" after the war. This would effectively bar the return of Japanese to that part of the province west of Hope.

Efforts are being made to secure some assurance from Ottawa that some additional labor would be made available to replace the Japanese removed, but so far the government has turned "thumbs down" on all requests.

Whatever the outcome of these representations, it appears fairly certain that the Japanese in question will be removed either at once or in October. The statement by Ottawa comes at the worst possible time and removal of the Japanese will put an added strain on the labor situation and the handling of the vegetable crop. The committee takes the view that, in spite of the fact that Ottawa seems to have deliberately put the growers on the spot, a sacrifice should be made in order to achieve the aim desired—the removal of these Japanese. The vegetable growers have co-operated in every way with the committee up to date and it is expected that if no amendment to the government's stand can be effected, then the growers will agree to immediate evacuation by the authorities.

The 112 Japanese are made up of 48 males, 33 women and 31 children, and it is understood that they will either go to the Vernon area or East of the Rockies.

The statement by Mr. Eastwood that the Commission "would not deal with Japanese settled on a duration permit" confirms the belief that these Japanese will remain after the war. The Commission has indicated that it is only interested in getting Japanese domiciled and, as the Coast will remain a protected area after the war, they will have to remain in the Interior.

Representative Meeting Tuesday Night Will Discuss Formation Of Agriculture Placement Committee

Committee Would Act Under Dominion-Provincial Farm Labor Service—Governments Will Assist With Administration Cost—Full Time Placement Officer to be Employed—Penticton Area Has Formed Committee Under Government Plan

DELEGATES from civic bodies, fruit growers, service clubs, boards of trade, schools, women's organizations and others will meet at the Kelowna Board of Trade rooms next Tuesday evening to consider the formation of a War Agriculture Placement Committee under the Dominion-Provincial Farm Labor Service.

As outlined in The Courier last week, the Placement Committee would act under the Dominion-Provincial labor scheme through a placement officer, who would work in co-operation with the Selective Service office in securing orchard labor and have complete charge of placement of these workers.

The placement officer will be paid by the two governments and office rent will also be provided. In addition under the scheme hostels will be established in areas requiring the same, where workers will be housed and fed during the picking season. The governments will unite in providing transportation over the 25-mile limit to workers wishing to come to Kelowna for work.

It is not anticipated that a great deal of workers will be available outside the district, although it is understood that pickers from Alberta, who were brought in by large orchards last year, will return again this summer.

One of the chief benefits arising from the employment of a placement officer would be the utilization of pickers every day during most of the season. Last year many pickers were idle at various periods during picking time, having finished getting one variety of the trees before the next type of apple was ready for picking. At the same time some orchards were short of workers and could have used this idle labor to advantage.

UNION DEMANDS DEBATED

Fruit Industry Names Committee to Meet Packing Union Officials—Cost Must be Passed Back to Growers—Meet on Tuesday

Representatives of the fruit industry and representatives of the newly formed labor unions will get together on Tuesday of next week to consider the demands for higher wages being made by the union. On Thursday of last week the shippers and grower representatives met in Kelowna and discussed the situation. A committee was named to meet the union representatives on Tuesday next.

The demands of the union are considered to be very high, it is understood. One prominent fruit man stated this week that the increased cost of boxes, plus the increased labor cost, should this be granted, would make an additional 10 per cent operating cost on the grower this year.

"It is a grower problem," he said. "And it is for that reason that the committee appointed had grower representation. In the final analysis it is the fruit that bears the cost and any additional packing costs from increased wages must be passed back to the grower. The committee is not a shippers' committee but one representative of the whole fruit industry."

MAGAZINES AND BOOKS NEEDED

Men of H.M.C.S. Kelowna Enjoy and Appreciate Current Fiction Given by Residents

Kelowna and district residents have been most generous in their contributions of magazines and books for the crew of H.M.C.S. Kelowna. Lieut. Davenport, R.C.N.V., has written to express their appreciation and stresses the pleasure derived from the reading matter sent from Kelowna.

Contributions can be left at the Courier office now for the collection. Only copies of current issues are needed and volumes of current fiction are particularly welcome.

DANCER IN ARMY

Lance-Corp. Betty Pringle C.W.A.C., daughter of Mr. and Mrs. J. N. Pringle, of Vancouver, formerly of Kelowna, is a champion Highland dancer and piper. Proof of her prowess is shown by the one hundred and sixty-four medals and fifteen cups depicted above. She is doing a fine job in the office of command recruiting at Vancouver Barracks.

Betty's parents are both Scots and she started on the pipes and dancing at an early age. She has won the Pacific Coast amateur championship for Highland Dancing and has competed in Highland Games in all parts of the province and the State of Washington. She is official piper for the Royal Scots Lodge, Sons of Scotland, and still finds time in her off hours since enlisting in the Canadian Women's Army Corps last September.

Loyalty Goes Just So Far—Apparently

The business houses of Kelowna were so patriotic that they closed all day on Wednesday to honor the King's Birthday.

However, on Wednesday Bernard Avenue was noticeably bare of flags to mark the day the merchants' holiday was celebrating. Apparently the loyalty did not extend as far as hanging out a flag.

FLYING BOAT BRINGS AIR FORCE HERE

Party Will Arrive in Grumman Goose This Morning—Cadet Inspection at Park This Afternoon

At eleven o'clock this morning R.C.A.F. personnel will arrive by flying boat from Vancouver to conduct the review and inspection of the Kelowna High School Air Cadet Squadron.

Squadron Leader "Nick" Carter, Vice-President, Air Cadet League of Canada, and well known R.A.F. flier in the last war, and Squadron Leader A. G. Symonds, cadet liaison officer, will review the local air cadets and Sgt. Major Chudley will put the lads through their evolutions at the City Park.

The inspection will start at approximately two o'clock on a large field in the park, where the local air cadets will be on hand at the Park when the smart air cadets put on their show and demonstrate their training progress during the winter months.

The inspection party will arrive in "Grumman Goose," an American-built flying boat, which is expected to land in front of the Aquatic.

A military band from Vernon will be in attendance at the review in the Park this afternoon.

RESERVES LAUD TRAINING AT VERNON CAMP

Kelowna's Civilian Soldiers Returned Saturday After Two Weeks of Army Life

"A swell camp and a grand time," is the way members of the B.C.D. Reserves sum up the two weeks training at Vernon, which was completed last Saturday.

Kelowna's civilian soldiers stood up well under the strenuous drill and instruction in handling modern weapons of war under battle conditions, and all returned home at the end of two weeks of army life.

Highlight of their training was the visit to the battle school last Thursday, when the men saw every phase of the new battle school training put on by hard, tough instructors and picked soldiers taking the course.

A public address system was used and the officer in charge described each phase of the operation as it was carried out by the men. Reserve soldiers were amazed at the physical condition of the "commandos" and the speed with which they packed equipment and put it to work.

The day was a revelation and the Reserves agree that men trained in battle school will be tough to stop and will crack through any defence. The B.C.D.'s had a good cook and report that rations were ample and tasty. "No frills," said one "but we were so hungry when we sat down that anything would have tasted good."

In addition to drill the men had instruction in small arms and mechanized equipment, and lectures were given at intervals during the day's training.

LOCAL AIRMEN COMMISSIONED

Among the list of Western Canadian airmen who have recently received commissions are P.O. Don Poole, son of Mr. and Mrs. A. C. Poole, and P.O. Charles E. Dore, son of Mrs. and Mrs. G. L. Dore. P.O. Poole is stationed in Nova Scotia, and P. O. Dore is at Calgary.

WESTBANK W.I. PROTEST SUGAR RATIONING

Feels That Sugar For Preserving Should Be At Least Twenty-five Pounds Per Person in Fruit Areas

POLICY INCONSISTENT

Concerned That Fruit Canning For Overseas Use by Red Cross Is Becoming a Racket

Members of Westbank Women's Institute protested at their May meeting against the allotment of 10 lbs. of sugar per person for canning, by voting, without a dissenting vote, in favor of the following resolution, which is being forwarded to W.I. district conferences being held this month, and to the proper authorities elsewhere:

RESOLVED: That Whereas, in the present emergency, Canadian women are being continually urged to practise conservation and thrift to a greater degree than ordinarily by the use of supplies on hand instead of purchasing from already depleted stocks in our stores;

And Whereas, in the fruit-growing areas, where large quantities of tree-ripened fruit, unfit for shipment, are available free for home canning, so that families normally use from 100 to several hundred pounds of sugar during the canning season, and where the allotment of 10 lbs. of sugar per person for that canning is so inconsistent in the face of the pleas for conservation as to be absurd;

And Whereas, as a result of this allotment of 10 lbs. of sugar per person, tons of fruit will rot in Okanagan orchards alone this season, instead of providing necessary vitamins for our families next winter;

And Whereas, the canners are being subsidized in their jam-making this season, while fruit growers must see their fruit rot unless they can without sugar, which is being advised by some experts, but which families, particularly small ones, women when they are supposed to eat such unsweetened fruit, it being impossible to spare sweetening for their ration of ½ lb. of sugar per week;

And Whereas, it is our firm conviction that far greater conservation can be practised by the allowing of a larger allotment of sugar for canning in fruit growing areas, thus leaving free available stocks for commercial jams, etc., for purchase by those in cities and towns not in fruit growing districts, where fruit for canning must be bought; we, the members of the Westbank Women's Institute herewith request that the allotment of sugar per person for canning in these fruit growing areas be increased to **AT LEAST 25 pounds of sugar per person.**

Red Cross Fruit
Regarding the request by Red Cross headquarters that raw fruit be forwarded to Vancouver for fruiting of jam for overseas, discussion resulted in the feeling that as tree-ripened fruit is usually used for such purposes here in Westbank, it will not be feasible to ship such fruit any distance in its fresh condition.

The feeling was also voiced that as "charity begins at home," enthusiasm for overseas canning might not be as keen as heretofore. Further, as a result of a letter received by W.W.I. from overseas, a stronger feeling was voiced as to whether or not such canning is not becoming a "racket?" By the substitution of the word "peaches" for "pears" it transpires that Oliver Women's Institute has received a letter, identical even to the name of the sender, to the one received by Westbank. The Oliver letter appeared in the last issue of The Penticton Herald.

The recipient, E. J. Patterson, R.C.A.M.C., writes as follows: "Dear Ladies, 'Just a few lines to say 'thanks a million' for the lovely can of pears I had the pleasure of receiving from you yesterday. What a treat, although I did have a little pain in my 'tummy' during the night for making such a hog of myself. But honestly, they were such a treat, I just had to keep them until well! There were no more left. I think it is great to know that we have not been forgotten by the folks back home. It makes these dark days turn to Page 7, Story 1."

B.C. Products Show Tomorrow Night Will Have Many Features

Quiz Contest For One And All Under Quiz Master Morris Offers Many Fine Prizes—Motion Picture Show Presents Unusual Films With Expert Producer—Public Will Be Entertained And Speeches Are Out

Products Bureau Promises No Dull Moments

THIS is B.C. Products Week and all Kelowna and district residents are invited to attend a special B.C. Products Show which will be staged at the I.O.O.F. Hall tomorrow night. The entertainment and exhibits are sponsored by Kelowna Retail Merchants' Bureau, under the chairmanship of W. B. Hughes-Games, and there is no charge. Visitors can be assured of lots of fun with a quiz contest heading the list and special motion pictures being shown. The public can be sure that they will enjoy every minute of the evening's entertainment.

The quiz contest offers a variety of splendid prizes to contestants and is under the direction of G. M. Morris, Field Secretary of the B.C. Products Bureau. Even the losers get prizes in this show and have a good time in the bargain.

The film showing will be produced by C. R. D. Ferris, who has been loaned by the Department of Trade and Commerce. Picture shows have always been one of the most popular features and this year it was decided to improve materially this side of the show. In seeking the co-operation of the Department of Trade and Commerce, the Bureau assured the use of films of unusual interest. The Department not only offered a choice of its entire library but consented to the services of their ace photographer, C. R. D. Ferris, for the show, and he is bringing his equipment so that the films can be shown under the best conditions.

These arrangements have resulted in the 1943 presentation being outstanding in all respects and the best ever presented on behalf of the industries of the province.

A preview held in the Fraser Valley was a tremendous success. Eight hundred people turned out to see the show and view the displays. War offers many difficulties in planning entertainment of this kind, but the exhibit committee has spared no effort to make the event the success that it deserves.

This year formalities such as speech making have been reduced to a minimum and will have a minor part in the program.

In co-operation with the B.C. Bureau, Kelowna merchants have put on special store and window displays as a preview of the show tomorrow night. Many attractive displays are in evidence to make the public realize that their province holds a key spot in Canada's industry.

As an indication of how short the speeches are being kept at the show tonight, just five minutes are allotted to the chairman's remarks and just three minutes for the introduction of the B.C. Products representatives. Another three minutes is all that is allowed the chairman of the B.C. Products Bureau of the Vancouver Board of Trade.

The free movies follow these brief speeches and the quiz contest follows the movies.

LABOR DIRECTOR SAYS LABOR MUST BE LOCAL
No Outside Help Available, States W. MacGillivray In Address at Armstrong

"There are no hired men to be had," was the gist of remarks made by W. MacGillivray, Director of the Dominion-Provincial Emergency Farm Labor Service, in an address at the Agricultural Hall to an Armstrong audience, on Friday evening, May 28th.

Mr. MacGillivray outlined the efforts which had been made by the Dominion-Provincial Emergency Farm Labor Service to obtain hired help for farms. Owing to the serious man-power situation in Canada at the present time, hired men, in the usually accepted understanding of the term, are just non-existent.

To harvest crops in the Interior this year, Mr. MacGillivray indicated, agriculturists must depend upon local citizens—huswives, boys and girls from High Schools and Public Schools, store clerks who spend their holidays on the farm helping get the crops in, and women of the urban communities.

Mr. MacGillivray indicated that the Dominion-Provincial Emergency Farm Labor Service was determined to do everything in its power to assist each local community in solving the labor problem facing agriculturists. He stated that he realized a serious food shortage was threatening this country and that in some cases production was certain to be less this year owing to the fact that farms had been unable to get help to make all their customary plantings. He appealed to every local citizen in any town or city, who can possibly do so, to offer his assistance to his Local War Agricultural Production Committee in order that the harvest might be gathered this year.

Whether or not the Kelowna stores will close one full day each week will be decided at a dinner meeting of the Board of Trade on Friday night.

Vernon, Kamloops, Nelson and Vancouver stores are closing one full day each week. The general day in Vernon is Thursday, while the other communities have Wednesday. However, not all the stores in any of these towns are closing that day. On the other hand, many of the usual half-holiday while others are closing on Monday mornings.

An effort is being made here to avoid any such split situations that have developed elsewhere. The retail merchants have been asked four questions and are instructed to come prepared to state an opinion on the subject.

They are asked if they are in favor of closing stores for one whole day a week for the duration or for a definite period.

Then, they are asked if they think the store hours should remain as they are at present.

The merchants are also requested to have an opinion upon which day the stores should close, provided the majority are in favor of a whole-day closing.

It is probable that there will be a wide diversity of opinions expressed at the meeting. Food stores, for instance, point out that if any but Wednesday is taken as a holiday, it means that they must tear down their perishable products display and erect it again. If Monday were taken this would not be necessary as it is done every week-end in any case.

On the other hand, many of the other lines of business will prefer the mid-week holiday. Some merchants have indicated that they are opposed to any change of the present closing hours, excepting in the event of the rural areas needing assistance in crop harvesting this fall.

If it should be decided to stay with the present closing hours, it is possible the merchants may outline their closing hours for the harvest period.

Merchants Will Debate All-Day Store Closing Tomorrow Night

Unanimous Decision Necessary to Avoid Confusion Existing in Other Cities — Butchers Want Monday

Whether or not the Kelowna stores will close one full day each week will be decided at a dinner meeting of the Board of Trade on Friday night.

Vernon, Kamloops, Nelson and Vancouver stores are closing one full day each week. The general day in Vernon is Thursday, while the other communities have Wednesday. However, not all the stores in any of these towns are closing that day. On the other hand, many of the usual half-holiday while others are closing on Monday mornings.

An effort is being made here to avoid any such split situations that have developed elsewhere. The retail merchants have been asked four questions and are instructed to come prepared to state an opinion on the subject.

They are asked if they are in favor of closing stores for one whole day a week for the duration or for

WAR CASUALTY LIST NUMBERS 14,000

Air Force Leads With Over Seven Thousand Listed As Dead, Wounded or Missing

Canada has lost approximately 14,000 men in the army, navy and air force since the outbreak of war, Defence Department figures show.

The R.C.A.F. heads the list with 7,957 casualties. Of this number 3,750 have been killed and 1,899 are listed as missing.

The army list is largely made up of the prisoners taken at Dieppe and 1,000 soldiers are listed as dead. The number of prisoners given is 3,500 and total army casualties number 6,550.

The navy list gives 902 as dead and 160 wounded with four men listed as prisoners for a total of 1,066.

THE KELOWNA COURIER

Established 1904

A newspaper devoted to the interests of the Kelowna District of the Okanagan Valley in British Columbia, published every Thursday morning by The Kelowna Courier Ltd. The Kelowna Courier is a member of the Canadian Weekly Newspapers Association and of the British Columbia Weekly Newspapers Association.

Subscription Rate: \$2.50 in Canada; \$3.00 in other countries; single copies, five cents.

MEMBER OF "CLASS A" WEEKLIES

The Kelowna Courier has by far the greatest circulation of any newspaper circulating in the Central Okanagan Valley.

THURSDAY, JUNE 3rd, 1943

The Consumer And The Future

In common with the rest of Canada, British Columbia is considering the domestic problems and difficulties that will confront us when the last shot is fired, the last bomb dropped and the Axis nations lie crushed and beaten.

Our problems lie in this Pacific Coast province, with its great resources and diversity of interest, differ materially from those of the past and also from those of other Canadian areas. Our economy has changed rapidly and now manufacturing must be granted full partnership with our primary industries in the future development of the province.

In the other great manufacturing sections of Canada a fairly complete industrial development was attained years ago and the changes brought by war are not as complex as those experienced here. Manufacturing in British Columbia has suddenly become a lusty young giant with boundless energy and an unlimited capacity for achievement.

The demands of war coupled with the firm foundation of ability and quality production found in our pre-war manufacturing industry have made this growth possible. This rapid development has resulted in a period of prosperity and full employment never experienced in British Columbia before.

It is generally recognized that the problem of employment is the first consideration in post-war planning. In British Columbia it is indicated that we will have to depend on our manufacturing industries for a substantial number of the jobs that will be necessary for returned men, war workers and others. In order that industry will be in a position to supply this employment, the advances of the last three years must be maintained and increased.

The responsibility for this will devolve largely on the British Columbia consumer. Consumer support of British products in British Columbia will supply the aid needed by industry to readjust itself, employ labor and secure new markets.

Each and every purchase of B.C. merchandise or produce by B.C. people is and always will be a direct contribution in creating and maintaining jobs for family, friends and neighbors.

No one has a greater part, no one has a greater responsibility and no one has a greater stake in a successful future for British Columbia and its people than the British Columbia consumer.

Not A Whole Success

Now that the final figures of the Fourth Victory Loan campaign are available for consideration, it is not too early to say that the campaign was not an unqualified success. Two quotas had been set for the country; only one has been oversubscribed, the other not even being reached. Out of a total of \$1,100 millions which were sought, it was expected that the individual subscribers would produce at least 500 millions, the rest to be obtained from institutions, corporations and trust funds and municipal governments.

Once again the problem of demobilizing inflationary funds, which is one of the primary reasons for having loan campaigns, has been submerged in the more spectacular appeal to speed the fight and, of course, as long as the public is convinced that insurance and other institutions will be there to speed the fight by oversubscribing every loan, there is not much to worry about—so the public thinks.

The great rejoicing which has taken place upon every public rostrum in the country, with citizens slapping each other's back for their wonderful achievement, ought to have been saved for another day. It would have been much better to save the cheers until the Canadian public really does its part in the campaign.

For the truth is the Canadian public did not put the loan across; it was the insurance companies and the large corporations which took up the slack left by the general public.

One of the primary objectives of the loan was to fight inflation. It was announced that the best way to do this was through the purchase of bonds on the deferred payment plan. It is understood that but a very small percentage of the bonds bought were on this basis. The reason that the deferred payment plan is the best way to fight inflation is simply because money pledged to buy bonds out of current earnings draws just that much money out of the current spending pool. From this viewpoint, it is said, the loan approached being a dismal failure.

It is clear, of course, that the ending of one campaign signals the start of the preparations

for the next, but now is the time to find out why some eight million Canadians have not yet acquired a Victory Bond.

If there has been some deep rooted economic considerations or if there are prejudices, then the time to find out is now. Even in Kelowna there are many who should have bought who did not. If they and a large number of others have not yet the feeling of being directly involved, that will perhaps be changed before long.

The most likely reason for the failure of the general public to do its part and to also fail to purchase on the deferred payment basis seems to be that the emphasis has been placed upon the uses to which the money will be put and for which it is needed, rather than upon the uses to which money should not be put just now. As long as the need for money is emphasized, and as long as the institutions are there to provide most of it, some eight million Canadians apparently feel that there is nothing to get excited about.

A serious crack in the price ceilings would be a quick illustration of the fact that there is something to get excited about. And the crack might come at any time as things are now.

If and when both Victory Loan quotas were achieved, there would be real justification for citizens praising their own efforts and civic pride would have taken care of the rest. As long as the leaders in the various communities, however, rely on the wealthy men and large concerns to give their patriotic instincts a free ride we cannot expect much in the way of an improvement.

Dissolution Of Third International

Dissolution of the Communist Third International by its own leaders is a major contribution to the war against Hitlerism and, as well, to the hopes for post-war reconstruction on the basis of co-operation and trust among the United Nations rather than an atmosphere of mutual suspicion. Such a development should be welcomed as much in Canada as it must be by Premier Churchill, President Roosevelt and General Chiang Kai-Shek. It will not be welcomed by Axis leaders who have tried sedulously to sow the idea that victory of the United Nations would be a victory for bolshevism.

The war has shown that the Russian people possess an intense patriotism which is highly national in its character. The dropping of "World Revolution" out of the national creed will not make the slightest difference to any true Russian. On the contrary, it will remove a factor which could have mitigated in post-war years very much against the interests of Russia and of democratic nations as well. The return of Russia to world trade and communication in peacetime is facilitated by such a move, and any major realization of the possibilities of development in that great country and in China should stimulate commerce the world over.

Russian leaders, since the departure of Trotsky and the rise of Stalin to the leadership, have shown themselves highly adaptable. They have drawn heavily on the capitalistic nations for "experts"—another word for what we call management and technical skill—and they have given a major place to what used to be the leading principle of successful enterprise on this continent: paying each according to the amount and quality of needed production or service he renders.

Kelowna In Bygone Days

(From the files of The Kelowna Courier)

THIRTY YEARS AGO
Thursday, May 29, 1913

"Government crews are at present working in the district spraying orchards. After working in the vicinity of town for a while, they leave this morning for the Rutland district, where there is a considerable amount of work ahead of them."

The children of the Glenmore School spent Arbor Day in planting poplar trees around the school grounds.

In glorious weather an excellent program of athletic events, horse races and a baseball game between Kelowna and Kamloops marked the local celebration of Empire Day, May 29th. It is interesting to note that R. Whillits won the mile race for men in 5 mins. 42 secs. G. N. Kennedy ran second in the 100 yards and third in the 220. J. N. Cameron's "Local Option" won two of the trotting races. Kelowna defeated Kamloops in the baseball game by 4 runs to 2.

The Kelowna Fire Brigade war canoe crew organized for the season on May 26th, with the following officers: President, Geo. S. McKenzie; Vice-President, A. Edwards; Manager, F. M. Buckland; Captain, Max Jackson; Vice-Captain, Claude Newby; Secretary, E. Denison; Trainers, H. L. Whillits and C. Tillbrook; Committee, the officers, E. C. Weddell and J. McMillan.

At a meeting of the Kelowna Baseball Club on May 27th, the following officers were elected for the season: Honorary President, F. S. Coates; President, T. E. Cooper; Vice-President, T. Morrison; Secretary-Treasurer, L. W. Colvin; Executive, L. W. Colvin, G. Fuller, T. Treadgold, Dr. W. H. Gaddes, F. R. E. DeHart, A. W. Bowser, Geo. Robinson (Manager), A. W. Henning (Captain), and A. Purdy (Playing Manager).

At a meeting of the new central selling agency held at Vernon on May 24th, J. E. Reekie and A. W. Bowser were elected directors to represent the Kelowna district. Mr. Reekie received the further honor of being elected President of the new organization. R. Robertson was appointed General Manager.

"No effort will be spared to institute the most perfect system of handling and grading the fruit possible, and it is obvious to any one who has followed the business-like actions of the men who compose the directorate that in the near future the products of Okanagan orchards will reap even greater returns, against any possible competition, than in the past. The men in control are alive and understand the business, and, profiting by past mistakes, intend to make the central selling agency a success on every point, if hard work and thorough methods can achieve that worthy end."

TWENTY YEARS AGO
Thursday, May 31, 1923

"The first cherries to be shipped from the Okanagan this season were sent from Osoyoos to Calgary last Saturday, May 26th. There were 200 boxes in all, the variety being Governor Wood."

"During the past two months the Kelowna Creamery

Disgraceful Ruling

Sometimes it is most difficult to understand the workings of the official mind, which frequently becomes bound up in legalities and red tape and forgets that its actions affect human beings. Laws presumably are made to protect human beings and not to do them an injustice.

One of the unfortunate examples of the fumbling of the official mind in the interpretation of regulations which does not do simple justice is the ruling of the Department of National Revenue that the mother of a child born out of wedlock can claim no income tax exemption for the child, even though she has assumed the responsibility for the maintenance of the child. The Department of National Revenue holds that a child born out of the marriage bond is not a child.

There seems to be no sound or valid reason from either the moral or commonsense points of view why a mother, willing and anxious to care for her child born without benefit of clergy, should not receive exemption for that child as do parents of children born in wedlock. According to the department's ruling, a child born out of wedlock is to be punished by the people of Canada, which is inhuman, to say the least. A child born out of wedlock costs just as much to rear as the child born within wedlock. These children have enough to contend with without the government indirectly punishing them by withholding tax exemption from their mothers.

Dr. George F. Davidson, executive director of the Canadian Welfare Council, speaking at the annual meeting of the Council, put part of the case in these words: "These mothers are working to support illegitimate children on their own, rather than shift the responsibility on to the shoulders of the community. They should not be deprived of their right to claim exemption for a child that is dependent as any other person legally dependent on them."

"This discrimination between dependent children who are illegitimate and those who are legitimate is supported by neither common sense nor justice in this day and age."

Child welfare agencies have tried to maintain, on the part of the mother, a sense of personal responsibilities for the care and upbringing of her child. To do this successfully is good for mother and child, and is good for the community as a whole.

The action of the Department of National Revenue in refusing to recognize that child's care by its mother is a move against the social good of the nation. There ought to be a reconsideration by the authorities of the position taken. If it needs legislation to do the simple humanitarian thing, which is the only sound approach, then that legislation should be passed by Parliament.

To those whose hearts are not encrusted in granite the interpretation of the Department of National Revenue is barbaric and cruel.

German broadcasts are reported to be plugging the song, "The Watch on the Rhine." Must be preparing the Nazis for what's to come.

The Ottawa Journal reports there will be more mosquitoes than ever in Ottawa this summer. And who can blame the mosquitoes, with all those extra stenographers, etc., to attract them.

has been shipping butter to the Coast market. It is four years since this creamery found it necessary to ship its product out of the immediate district."

"Rev. Alexander MacLurg, M.A., B.D., late of Washington, Penn., arrived in Kelowna yesterday to take over the pastorate of the United Church, in succession to Rev. E. D. Braden, who left the same morning for Vancouver. Mr. MacLurg was accompanied by his wife and two sons. His two daughters are remaining in the East for the present to finish their education."

Traditional "queen's weather" appropriately ushered in the local celebration of Victoria or Empire Day on Thursday, May 24th, in the City Park. In the morning the sun was somewhat on the powerful side, but its ardent rays were obscured by clouds late in the afternoon, and the conditions were ideal for the football, lacrosse and baseball games. The morning was occupied with track events, which attracted only a small number of spectators, but the attendance was better in the afternoon, although not up to that of the previous year. Vernon, although penned into their own territory for a large part of the game, managed to score the only goal of the football match with Kelowna, and the local team was equally unlucky in the lacrosse game with Armstrong, being shut out by three goals to none. Some consolation was afforded by a Kelowna victory in the last event of the day, a baseball game with Summerland, by 7 runs to four.

At the annual meeting of the Kelowna Rowing Club, held on May 28th, Dr. H. B. MacEwen was re-elected President, and the following officers were chosen: Captain, C. Ootmar; Vice-Captain, R. Seath; Secretary-Treasurer, C. Stewart; Executive, Mrs. B. Burne, H. LeQuenne, G. Kerr.

TEN YEARS AGO
Thursday, June 1, 1933

The death is recorded of a promising and highly popular young citizen, Keith Jackson Smith, who passed away at the Tranquille Sanatorium on May 28th, at the early age of twenty-eight, following a lingering illness. A graduate pharmacist, he established the business of the Kelowna Pharmacy in 1931, but was laid aside by tubercular trouble a year later.

Mrs. Dan Currell won the Brewster Cup, emblematic of the ladies' golf championship of the Okanagan Valley, on May 28th. The trophy carried with it the privilege of a free trip to Banff to represent the Okanagan in the open tournament there, with all expenses paid by the donor of the cup. The runner-up was Miss Connie Hickman, also of Kelowna, and the contest was close all the way.

Cool weather was being experienced, and the season was reported by the Department of Agriculture to be about a week later than that of 1932. As ten years later, peaches were expected to yield only about half a normal crop owing to winter injury of fruit buds. Cherry blossom had set well and there was promise of a good crop. Prospects for other kinds of fruit seemed to point towards a fair but not heavy yield.

NO JAPS WANTED AT SALMON ARM

Salmon Arm and district has voted to exclude Japanese labor from that area. In a ballot taken last week, residents voted six to one against their importation. The result of the questionnaires sent out to voters showed 325 against and 58 for the use of Japanese.

The result will mean that Japan-

ese farm workers cannot be brought into the area covered by the Salmon Arm Municipality.

When glue thickens in the bottle, loosen it with vinegar instead of water. Glue spots may also be dissolved in this way.

To remove grease spots from wallpaper, mix fuller's earth with liquid ammonia into a thin paste and apply. When dry, brush off.

Kelowna, B.C.

INTERLOCKING MAKES FOR PROSPERITY

Co-operation Between Manu-
facturer, Grower and Con-
sumer Makes For Balanced
Economy

The people of B. C. and the manu-
facturers of B. C. products have
come, over the true test of years, to
know that they can depend upon
one another. And to this consistent
and growing interdependence be-
tween our manufacturers and con-
sumers can be attributed much of
the success, not only of many B. C.
products, but also of many thou-
sands of B. C. people.

Out of their relationship towns
and cities have been built, new soil
turned into flourishing farms, sound
businesses and factories estab-
lished, homes and families founded.
Canadian Canners (Western) Ltd.,
makers of Aylmer brand foods, re-
alize this interdependence between
their B. C. products and their B. C.
consumers.

To the company's plants in Van-
couver, Mission, Ashcroft, Kelowna,
Pentelton, Oliver and Kamloops
come fruits and vegetables grown
by thousands of B. C. farmers. Hun-
dreds of B. C. people earn their
living by working in these Aylmer
plants. Other manufacturers, busi-
nesses and working people supply
them with goods and services that
go to make up their B. C. canned
goods products.

There are the printers of Aylmer
labels; the workmen who make the
cans; the mills that roll the tin
plate, prepare the lumber and fab-
ricate the shipping boxes into
which Aylmer foods are packed. All
or part of their livelihood is made
by these people and concerns from
Aylmer's seven plants.

To them, in turn, and to thousands
of other people within the province,
are sold the products of these
plants.

That is only one case of the in-
terdependence of B. C. people and
of B. C. products. There are many
others.

Taken together, they form a large
part of the fabric of British Colum-
bia home and industrial life.

"Buy B. C. Products," you see, is
more than just a slogan.

Reasons For Buying B.C. Products In War And In Peace

1. In wartime, freight space and transportation services are
absolutely vital to our war effort. Greater use of these services can
be provided for war materials if British Columbia people buy the
products of their own province and reduce the necessity of importing
similar articles.

2. After the war, British Columbia will need employment. Gov-
ernment authorities estimate that two million Canadians will seek
employment in the post-war period. Many of these will be in Brit-
ish Columbia. In addition, reports indicate that many people from
England will come to British Columbia after the war. If we have
the industries, we can provide work for all these people. This is il-
lustrated by the following example:

The purchase of a tin of canned fruit or vegetables means a
profit to the dealer, work for the man making the boxes or crates
in which it is packed, work for the printer making the label, work
for the man in the lumber mills and camps who provide the lumber
for making the crates and boxes, work for the transportation com-
panies in handling the produce and the manufactured product, work
for the factory preparing the product, and money for the farmer
who grows the produce. This pattern is true, no matter what B.C.
product is involved.

3. All indications are that the Pacific Coast will face an area
of great expansion when the Axis is crushed. British Columbia will
participate fully in that expansion, if her industries are being de-
veloped by the confidence of her people.

4. The quality of B.C. products has been forcibly demonstrated
in peace and in war. British Columbians should be proud of them
and demonstrate their pride by using their own products.

5. The value of property and increase in individual opportunity
depends entirely upon the production of primary and secondary in-
dustries. Buying B.C. products from B.C. distributors is, apart from
being a patriotic principle today, sound common sense for tomorrow.

6. The discovery of oil or gold always creates tremendous ex-
citement and enthusiasm. In our industries we have the equivalent
of many such discoveries that will pay a rich and constant dividend
in the form of pay cheques.

7. Every individual in the Province of British Columbia is a liv-
ing justification for the support of B.C. industries.

Home Market Needed For B. C. Products, Trade Board Prexy Says

People of B.C. Have Important
Part to Play in Future De-
velopment of Province

"The potentialities of the future of
British Columbia are brought into
sharp relief by the picture of our
ever-increasing war effort," R. A.
Whillis, President of the Kelowna
Board of Trade, stated this week.

"Our great basic industries of min-
ing, lumbering, fishing and agricul-
ture have all reached new peaks
in production, but the most astound-
ing expansion of all has been in the
secondary industries. It was not
generally realized how solid was the
framework laid by our manu-
facturers during their long up-hill
struggle for recognition in the days
of peace. Today, because of their
experience and their ability to adapt
themselves to changing conditions
and new methods, hundreds of new
products march with hundreds of
our old-established products to bol-
ster the fighting strength of the
United Nations."

"B. C. products," Mr. Whillis
said, "are found in every port
where Allied shipping docks and on
every battle front where Allied sol-
diers fight, their quality ranking
with the best in the world. To date,
however, British Columbia's progress
has been largely dependent on her
position as a primary producer. The
war has demonstrated the tremen-
dous importance of manufactur-
ing, and in the future it is highly
essential that a very great part of
the recent expansion in our second-
ary industries be retained."

"We have the resources, the power,
the climate and the harbors so
necessary for such development,
but these natural attributes are not
enough. The expansion of the sec-
ondary industries depends on the
support of the people of British Co-
lumbia. After the war, the demand
for the products of British Columbia
industries by B. C. people will be
the corner stone for the erection of
a great peace-time manufacturing
era in the province."

"Even highly industrialized Eng-
land recognizes the necessity for a
strong home market. This was evi-
denced in a recent brief covering
post-war rehabilitation, brought up
by the Federation of British In-
dustries. One of its submissions in
this document reads in part: 'The
power of the home market to con-
sume the products of industry in the
post-war period is an essential element
in reconstruction.'"

"How much truer is that in Brit-
ish Columbia, where manufactur-
ing today, compared with the de-
velopment possible, is still in its in-
fancy."

"During the war, as indiscriminate
buying becomes restricted due to
Government control, British Colum-
bia people should become B. C.
product conscious. Eventually, when
peace again graces the world, this
B. C. product consciousness will
prove itself to be the channel down
which mighty rivers of develop-
ment and prosperity will flow."

PAPER HELPS FRUIT GROWER

Many Varieties of Paper Pro-
ducts Used in Okanagan

One of the greatest friends of Ok-
anagan fruit and vegetable farmers
is the old-established firm of Smith,
Davidson & Wright, Limited, of
Vancouver. Every season large ship-
ments of KEYSTONE brand fruit
wrapping supplies are purchased
by the packers. Not only oil wraps,
dry wraps (printed or plain), but
also box liners, plum strips, pear
collars, apple box pads, and other
supplies. And in many of the homes
are found that other popular qual-
ity product, SOVEREIGN bathroom
tissue. At the present time those
modern individual hot-houses called
HOTKAPS are appearing on the
vegetable gardens and over small,
tender plants to give them the prop-
er start for quicker, healthier
maturity and full satisfaction in the
full-grown plants. With the thought
of staking plants securely, you are
invited to try TWIST-EMIS, a quick
metal binder that saves time and
holds the stakes solidly and in a
professional manner.

All the items mentioned here are
to be had from Smith, Davidson &
Wright, Limited, of Vancouver, a

NO SHORTAGE OF COYLE BATTERIES

War Does Not Curtail Output
of B.C. Battery Plant

Shortages of raw materials and
an ever-increasing demand for man-
power in the armed forces make it
extremely difficult for many manu-
facturers, especially those located
in Eastern Canada, to make delivery
of some of their products with any
degree of regularity. Transportation
facilities also are becoming taxed
to capacity.

That is not the case in British Co-
lumbia. Practically all of the raw
materials used in the manufacture
of COYLE batteries are produced
here in British Columbia, and a suf-
ficient supply of these materials is
available to make possible almost
immediate delivery of any type of
storage battery desired.

These British Columbia-made
batteries need no introduction to
industrial and automotive battery
consumers in any of the Western
provinces. The COYLE factory has
been in operation in Vancouver for
twenty years, and hundreds of
mines, mills and logging camps, as
well as thousands of automobiles,
trucks and tractors, fishing boats
of every description, tug boats and
pleasure craft, have adopted
COYLE batteries with complete
satisfaction.

Supplies of raw materials are
ample to assure quick delivery, and
the COYLE battery is guaranteed
to be as good as, and in many cases

The Soviet Union stretches 5,000

Payrolls Are Vital To Welfare Of Province, Mayor Contends

Every Purchase of B.C. Products Helps People of Whole Province

"The war has defined more clearly than ever the reasons for British Columbia's development as a province and its products. The productive capacity and the quality of products of our industrial life are being forcibly demonstrated every day," Mayor G. A. McKay stated this week.

"Now, the necessity of conservation of everything vital to the war effort is being emphasized to a greater degree than ever before. Three of the most vital necessities in our fight for freedom are cargo space, rail freight space and the manpower needed to man all forms of supply, transportation. British Columbia, by using the products of their own province, can prevent an overlapping and a waste of these vital services. This shows a definite reason for purchasing our own products as a contribution to the war effort of Canada."

"It is being realized every day that the grand strategy of war must include a definite consideration of the post-war era. All governments or councils agree that when hostilities cease we must be in a position to provide employment for all our people requiring it. In other words, we will need payrolls. It has been proven time and time again that payrolls create purchasing power, and that purchasing power creates the expansion of industry and, in turn, the expansion of payrolls."

"If any district is to have a firm foundation, there must be payrolls. So, when British Columbia people buy things that have been produced and manufactured in their own province, they help British Columbia payrolls and so, indirectly, help themselves. For instance, when the people of Vancouver buy a box of Okanagan apples, the dealer makes a profit, the delivery man makes a profit, the packing house makes a profit, the box manufacturer's employees do likewise, as do the employees of the printing plant which printed the label on the box. Nails also come into the picture. Then the farmer benefits also, and all those companies from which he purchases groceries, machinery, fertilizer and spray and the thousand and one other items a fruit grower must have."

"The same idea is true of the purchase of any product made in B.C. When we purchase a can of salmon or a pair of gloves made in this province, we set in motion a similar circle of reward for effort that the Vancouver person does when he buys a box of our fruit. The fruit that we sell to the Coast people helps us to obtain money to purchase things that they make. With this interdependence in mind, it can readily be seen that the establishment of employment in the post-war years depends to a very considerable degree upon the manner in which the people of this province support their own industries and themselves."

"Indications are that the whole Pacific Coast should experience a period of enormous development when hostilities cease. Foundations for this development are laid down in the Atlantic Charter and the vast new markets across the Pacific Ocean. Whether British Columbia enjoys the complete advantages possible in the future of the Pacific Coast depends upon the extent of the development and the maintenance of our secondary industries."

"The future of the secondary industries is in the hands of the people of British Columbia. If they form the habit of purchasing B.C. products now when the war is raging, the desired development in the days of peace will be assured."

War needs have greatly accelerated the use of coal as a chemical raw material.

BARBARA ELLEN SPENCER

Visiting Kelowna is Miss Barbara Ellen Spencer, women's writer of The Vancouver Sun. A native of British Columbia, Miss Spencer has travelled extensively over the province. For this reason she is particularly interested in women's war work and activities in British Columbia and is visiting Kelowna, not only to record the fine work done by the busy women here, but to meet them personally.

MALKINS MEET MANY PROBLEMS WAR BRINGS

New Packages Reflect War Shortages — Employees Active

Wartime conditions have resulted in many problems for manufacturers of food products. The W. H. Malkin Co., Ltd., is a B.C. firm which has grown up with British Columbia, has spared neither expense nor effort to be sure that wartime restrictions will cause their customers as little inconvenience as possible.

Their efforts in this regard, and their policy of co-operating in every way to aid in the conservation of vital materials, necessary to the successful prosecution of the war, are reflected in many package changes. Malkin's Best Orange Marmalade is now packed in a composite container with cardboard sides and tin top and bottom. Malkin's Best Jam will be packed this season about 25 per cent in composite container, the balance in glass. This means a real saving in metal for vital war uses.

A plan to assure as large and equitable a distribution of jam as possible, despite crop shortages and wartime restrictions, is receiving intensive consideration by The W. H. Malkin Co. at the present time. Employees, as well as the management, at The W. H. Malkin Co. are wholeheartedly behind the war effort. They have just completed a Victory Loan drive, raising \$13,500.

Malkin's Best Old Guard Association are very active in social service work, and "Malko" Girls Club have just concluded a successful year in which they dispatched fifty-eight Christmas boxes to members of the firm in the fighting forces. They have also made substantial cash donations to the Canadian Red Cross Society, Vancouver A.R.P. organizations, Shaughnessy Military Hospital and the Aid to Russia Fund. In addition, they purchased a \$250 bed for Pablo Military Hospital in England.

The mark often left on a garment that has been cleaned with benzene can be prevented if the material is ironed under a damp cloth immediately after cleaning.

VERNON FISH AND GAME CLUB MEETS

Little Change in Opening Dates Recommended—Annual Convention of Game Clubs at Princeton in June

Comparatively few changes in the open seasons on upland game birds and big game were recommended by members of the Vernon and District Fish and Game Protective Association at a recent meeting. The gathering was under President E. W. Prowse, was the best attended sportsmen's meeting held in Vernon in years, nearly every seat in the Burns Hall being occupied. Members with the drive not nearly over, was reported to total some 225. President Prowse announced that an endeavor would be made to have the Attorney-General, Hon. R. L. Maitland, head of the Game Department, visit the club in the near future.

Recommendations as to seasons were as follows: Bud Anderson and Tom Swift urged that deer shooting open two weeks earlier and close two weeks earlier, but any earlier starting date was opposed by Game Warden Charles Still, who said that many hunters have trouble keeping their meat during the warm weather.

Jack Woods declared opposition to having a season on does, "If you open the does, you can bet that somebody will be killed," he warned.

Wash Ryan, in asking that the season be left as last year, declared: "The deer are getting scarce. You want to realize that before it's too late. The cougar and coyotes will take care of the does for us."

A resolution endorsed by the B.C. F.G.A. and by the Kelowna Rod and Gun Club, asking for a tagging system on beaver, was endorsed by the delegates after trappers said they would welcome such a move.

Secretary Norm Schroeder reported that the annual convention of the Interior game clubs would be held at Princeton on June 10. President Prowse and Vice-President Frank Becker were named as delegates, with P. C. Armstrong and Frank Harris as alternates.

P. C. Armstrong reported on the ammunition situation, after Dr. Prowse had assured the meeting that the authorities in B.C. are doing everything possible to secure a supply for this fall. Mr. Armstrong said that, according to a ruling of the Wartime Prices and Trade Board, no ammunition would be available for sporting purposes this year. Quantities are to be guarded carefully by Local Ration Boards, less than one-tenth of normal amounts being said to be available.

Those who have a supply of ammunition, Mr. Armstrong said, may use it without restriction. Reloading of old cases is also permitted, provided the owner is in possession of powder and shot.

J. B. Woods introduced a resolution demanding that the new fishing limit of 25 pounds and one fish per day be dropped in favor of the old ruling of 15 per day regardless of weight. This motion was passed by a good majority despite some opposition.

RESERVE OFFICER RETURNS FROM ARMS SCHOOL

Lieutenant O. L. Jones Back From Two Months' Course at Long Branch, Near Toronto

Lieut. O. L. Jones returned home last Thursday morning, after a two months small arms course at Long Branch, Ont., a short distance outside Toronto. In his capacity as a city alderman, Lieut. Jones paid a brief appearance at the luncheon of the Okanagan Valley Municipal Association in the Royal Anne and then left for Vernon.

The B.C.D. Reserve officer speaks highly of the instruction given at the Eastern arms school but has few good words for Ontario weather. He reports that it rained for days at a stretch throughout his stay and that farmers in the district have done little or no planting so far this spring.

A large number of officers and men are taking courses at Long Branch and receive intensive instruction in all types of light armament.

In spite of unseasonable weather, Lieut. Jones looks the picture of health and says he thoroughly enjoyed the experience.

JAP ALMOST LOSES STACK OF WOOD

Bush Wood Piled On Lot Next Kelowna Machine Shop Burns in Mysterious Blaze

Late last Thursday night the Kelowna Volunteer Fire Brigade had a fire practically at its back door. On the other side of Lawrence Avenue, on a vacant lot next to the Kelowna Machine Shop's new addition, stands a pile of bush wood owned by a local Japanese.

In some manner yet to be explained the wood caught fire and one end of the pile was blazing merrily when the fire fighters arrived from across the street. It did not take long to douse the blaze, but it was fortunate that it occurred close to home, as in a few minutes it would have spread through the wood and would have endangered the Machine Shop premises only a few feet away.

The end of the pile was badly charred but quick action saved most of the wood.

While a fruit stain is still moist, cover it with powdered starch. When dry, rinse the article in cold water and wash in the ordinary way.

When cleaning steel knives, add a little bicarbonate of soda to the cleaning powder. This helps to remove stains.

Caller: "May I speak to the lady of the house, please?"
Maid: "There's no lady of the house any more; she's a lieutenant." with so many lights in it!"

"BUY B.C. PRODUCTS" was never merely a sentiment. It was always sound economics. With the Empire at war, it becomes more than that... it becomes a patriotic duty. Every dollar spent at home, where a dollar is still a dollar, helps the War Effort and helps you too.

This war has made us realize how very fortunate we are in being able to live so extensively on our own resources. By far the major portion of our domestic needs... fruits, foodstuffs, textiles, boots and shoes, to name only a few... can be supplied by our own farms and factories.

British Columbia thrives by its industries and its industries thrive by each other. Help one and you help them all.

Ottawa Must Provide Dairy Farm Labor Says Okanagan Municipal

Milk Famine Looms as Herds
Are Sold For Lack of Help
—Delegates at Kelowna
Meeting Discuss Hospital
Grants

The Okanagan Valley Municipal Association met in Kelowna last Thursday, when over forty representatives from Kamloops to Penticton discussed municipal problems and called upon the Government to take immediate steps to supply adequate farm labor to avert an impending milk shortage.

Indications that the Provincial Government might change the present system of hospital grants to the disadvantage of small hospitals occasioned a lengthy discussion which culminated in a resolution supporting the present plan of hospital grants.

The Association reaffirmed its stand in regard to payment by the Government of medical costs for pensioners and advocated that a system of health insurance be introduced which would cover cases of this kind. At its last previous meeting, the Association refused to support the Provincial Government's plan for equal sharing of these costs, and this stand was approved by speakers who stated that passage of the measure might find the municipalities "holding the bag" and paying all the costs.

The proposed school tax reform which would remove the burden of school costs from the land was viewed, and a letter from Alderman Scanlan of Kamloops, outlining steps that have been taken in organizing support from allied organizations, was read.

Delegates expressed their pleasure at the manner in which the question is being handled and the progress that is being made toward a united front. Indications suggest that the B. C. Municipal Association will be able to secure the backing of key organizations and societies throughout the province, who will join with the Association in pressing the Provincial Government for a revision of school taxation.

With reference to the hospital grants, Alderman Hughes-Games stated that he had good authority for believing that the Government planned to pool all hospital grants and to allocate funds to B. C. hospitals upon an indigency treatment basis.

The majority of interior hospitals have insurance schemes and the Government lists all insured accounts as "paid." The large coast hospitals have no insurance plans and treat a large percentage of non-paying cases. The result of the "pool plan" would be that the smaller hospitals, in towns having insurance schemes and no floating population, would have their present government grants radically reduced.

The move was branded by delegates as an effort to bonus the large hospitals at the expense of the small ones and it was pointed out that with rising costs of hospital administration many insurance plans have been forced to increase the monthly payment, and a reduction in the present grants would be disastrous.

Mayor McKay of Kelowna introduced the question of inadequate labor in the dairy, telling the meeting that many herds were being sold and that a milk famine loomed as a result. It was pointed out by delegates that, apart from the prevailing shortage of farm labor, farmers were faced with the high wages paid in war industry at the coast and could not compete with that labor market.

The meeting agreed that some system of bonusing dairy farmers seemed the only solution and by resolution demanded that immediate steps be taken by Ottawa to ensure a supply of adequate labor for dairy farmers.

Mayor McKay welcomed the delegates at the luncheon in the Royal Anne Hotel, and the meeting was under the direction of Mayor Williams of Kamloops, President of the Association. The next meeting will be held in Vernon among Kamloops auspices.

BLUE RIBBON USERS INCREASE

B.C. Packed Tea and Coffee
Enjoy Increased Popularity

Perhaps no other situation has brought such concentration on the quality of tea and coffee as the ration coupons. When every home-keeper could buy any brand or quantity, there was a general laxity in attempting to get the best possible for one's money. Today all this is changed, and many staunch users of tea and coffee have begun to search out those brands which give the most cups per pound and the greatest satisfaction in use.

Whatever the cause, Blue Ribbon tea and coffee sales have increased and many new users have been added to the thousands who have made the name Blue Ribbon a household word in their families. Packed in B. C. and available everywhere in Canada.

Ink stains may be removed by covering the spot with lard. Let this stand for about twelve hours, and then wash the article in the regular way.

RUTLAND PLANS LAWN SOCIAL

The Women's Association of the Rutland United Church met at the home of Mrs. R. B. McLeod on the afternoon of Thursday, May 27. Amongst other business transacted, the W.A. made tentative arrangements to hold a lawn social at the parsonage about the third week in June. The sum of \$5.00 was voted toward the Fresh Air Fund at the close of the meeting. The next W.A. meeting will be held at the home of Mrs. W. McDonald.

Bishop Johnson, of Nelson, officiated at confirmation services at the Rutland Roman Catholic church on Sunday last, May 30.

Local members of the 9th Armored (R) Regiment, B.C. Dragons, returned home on Sunday from their two weeks camp at Vernon, tanned by sun and breeze.

Mrs. Charles Langdon left on Saturday for her home in Vancouver, after spending a holiday at the home of her parents, Mr. and Mrs. E. Mugford.

Rev. Dr. W. W. McPherson, of Kelowna, occupied the pulpit at the Rutland United Church on Sunday evening last.

A light frost occurred on the night of May 31, damaging some potatoes, beans and tomatoes, but was not severe enough to cause serious loss. Owing to the backwardness of the season, many growers have not yet planted their tomatoes on the flat.

COMMITTEE SAYS JAPS SETTLE IN PEACHLAND

Members of Peachland Security Committee Resign After Stormy Meeting—"Ignored," Says Committee

A meeting called by the members of Peachland Security Committee was held in the Peachland Municipal Hall on Friday night, May 28, to place before the citizens of Peachland a review of the local Japanese infiltration, and also to re-elect members of this committee.

Chairman J. Cameron read a report stating that a few Japanese had entered Peachland lately without permission from local authorities and requested the meeting to express its opinion as to how this matter should be handled.

Secretary C. C. Inglis read letters from W. E. Eastwood, of B.C. Security Commission, and G. A. Barrat, of B.C. Fruit Board.

A spirited discussion took place in which practically all those present took part. Opinions seemed to be pretty well divided and no definite decision was reached. The members of the local committee were of the opinion that this com-

mittee had been ignored and, consequently, felt that they wished to resign from same. As a result of this, resignations were handed in by Messrs. H. Ibbotson, S. G. Dull, John Cameron, G. L. Watt, a member of this committee, had resigned previously, being too busy to attend the various meetings.

W. H. Sutherland gave an account to the United Church at Westbank and Peachland of the United Church conference at Vancouver, from which he recently returned.

Bill Elliott is still at Vancouver General Hospital and has undergone another operation and his leg is now in heavy traction.

Ruth Elliott, who is stationed at Patricia Bay, has been promoted to the rank of Corporal in the R.C.A.F. (W.D.)

Miss A. Elliot returned recently in Kelowna from a trip to Vancouver.

Miss Sadie Todd returned recently from a trip to Vancouver.

Pte. Jim Evans, who has just recovered from mumps, spent the week-end at his home.

Mrs. F. E. Wright left last week for Vancouver, where she will spend a few weeks' holiday.

Miss K. Wright left last week for Vancouver, where she will be sworn into the R.C.A.F. (W.D.)

Eldon Bedford spent a short holiday at the home of his mother, Mrs. Bedford.

Mrs. Bedford is spending a holiday in Vancouver.

Elmer Perkins spent the week-end from a fishing trip to Dee Lake.

Corporal L. B. Fulus has received his discharge from the Veterans' Guard.

Word has been received by Mr. and Mrs. J. H. Wilson that their son, Sgt. Raymond Wilson, R.C.A.F., received slight injuries as the result of an enemy air raid in England.

Mr. and Mrs. Ibbotson and daughter, Justine, returned last week from Dee Lake.

Mr. and Mrs. C. C. Helyway returned Friday from a fishing trip at Dee Lake.

G. Garling returned from a fishing trip at Dee Lake.

H. Keating returned last week from a fishing trip to Dee Lake.

10 WAYS TO MAKE MEAT GO FARTHER!

HERE are ten ways to make meat go as much as 40% farther. Ten ways to give extra rich flavour and goodness to meat dishes. Ten ways to use Quaker Oats... the food which replaces so many health elements ordinarily found in meat.

For Quaker Oats is high in proteins. As high, ounce for ounce, as pork chops! or eggs! Higher than any other natural cereal, whole-grain or otherwise.

Quaker Oats is the richest, natural source of Vitamin B₁. Actually, Quaker Oats provides 70 International Units of Vitamin B₁ per ounce! (lean round beef steak, contains an average of only 12 I.U.'s of B₁ per ounce). And Quaker Oats contains generous amounts of Phosphorus, Iron and other B Vitamins, that are ordinarily obtained from meat.

Serve full-flavoured Quaker Oats regularly for breakfast! Use these delicious Quaker Oats meat-extender recipes, to stretch your meat ration... help family health... save your money!

Clip these Practical, Thrifty, Meat-Saving Recipes!

COMBINATION LOAF

(Serves 8)

1 1/2 lbs. beef (ground)
1/2 lb. pork (ground)
1/2 cup onion (cut fine)
1 cup Quaker Oats, uncooked
2 1/2 teaspoons salt
1/2 cup ketchup
1/2 cup mustard
1/2 cup Worcestershire Sauce

COMBINE all ingredients in order listed and mix well. Turn mixture into loaf pan (about 3 1/2 x 8 1/2 in.). Bake in moderate hot oven (375° F.) for 1 hour. Serve hot or cold.

MEAT OR FISH CROQUETTES

(Serves 6)

2 cups chopped cooked meat (or fish)
2 tablespoons finely-chopped onion
1 cup Quaker Oats, uncooked
2 cups meat stock or water
1 teaspoon salt
1/2 cup ketchup
1/2 cup Worcestershire Sauce

STIR Quaker Oats into rapidly boiling stock or water; cook over low heat, stirring constantly, for five minutes. Add meat or fish and seasonings, and combine well. Cool. Shape as 12 croquettes. Chill. Dip in seasoned sifted fine dry crumbs, then in diluted slightly-beaten egg. Finally, coat completely with seasoned sifted crumbs. Fry in deep hot fat at 350° F. (but enough to brown a cube of bread in 20 sec.)

BAKED STUFFED HEART

(Serves 8 or more)

Beef heart, about 4 lbs.
2 cups soft bread crumbs
1/2 cup Quaker Oats, uncooked
1/2 cup water or stock
1 teaspoon salt
1/2 cup ketchup
1/2 cup Worcestershire Sauce
1/2 cup mixed poultry seasonings
3 or 4 tablespoons soft dripping
CLEAN and trim the heart. Wash thoroughly, and dry. Combine the remaining ingredients, let stand for five minutes, then use to stuff the heart. Sew or tie up to secure. Coat with seasoned flour and brown thoroughly in hot fat in frying pan. Place in baking dish, rinse frying pan with water, and pour over the heart. Add water to fill cover. Cover and bake in a moderate oven (350° F.) until tender (about 3 or 4 hours). Season during baking.

QUAKER'S PORK LIVER LOAF

(Serves 8)

1 1/2 pounds pork liver
2 slices bacon, OR 2 tablespoons drip
1 medium sized onion
1/2 cup Quaker Oats, uncooked
1/2 cup ketchup
1/2 cup mustard
1/2 cup Worcestershire Sauce

SLICE pork (or other) liver; cook in water to cover for five minutes. Save liquid to use in loaf. Grind liver with the bacon and onion. Add all other ingredients except the ketchup. Mix thoroughly. Four ketchup into a greased loaf pan and add mixture. Bake in moderate oven (350° F.) for 1 hour. NOTE—If desired, half liver and half ground beef may be used.

SAVOURY WIENER SCALLOP

(Serves 6)

2 1/2 cups canned tomatoes
1/2 cup chopped onion
1 teaspoon sugar
1/2 cup soft bread crumbs
1/2 cup Quaker Oats, uncooked
1/2 cup ketchup
1/2 cup Worcestershire Sauce
6 wieners

COMBINE tomatoes, onion, sugar, salt, pepper, mustard and Quaker Oats. Place 1/2 of corn in a shallow greased casserole, cover with 1/2 of the tomato mixture. Dot with butter. Repeat until all of the tomato and corn is used. Split wieners in half lengthwise, brush with melted fat and place on top of casserole, cut side up. Bake uncovered in a hot oven (400° F.), about 35 minutes.

STUFFED LAMB SHOULDER

(Serves 6 or 8)

Boned shoulder of lamb (about 3 pounds)
1/2 cup Quaker Oats, uncooked
1/2 cup chopped onion
1/2 cup soft bread crumbs
1/2 cup ketchup
1/2 cup Worcestershire Sauce
1/2 cup water
WIPER meat with a damp cloth, and under it. Combine remaining ingredients thoroughly, and let stand for five minutes. Use to stuff the meat; tie or skewer to secure. Place on rack in roasting pan. Dot with soft dripping. Bake uncovered in rather slow oven (325° F.) about 2 hours. Baste often, and season during baking. Grand hot or cold.

QUAKER MEAT PATTIES

(Serves 6)

6 thin slices bacon
1 lb. beef (ground)
1/2 lb. pork (ground)
1 egg (beaten)
Dash of pepper
1 cup tomatoes (canned or fresh)
1 tablespoon onion (chopped)
1/2 cup water
1/2 cup Quaker Oats, uncooked
1/2 teaspoon salt

LINE 6 large muffin pans with bacon. Combine remaining ingredients and mix well. Turn into muffin pans. Bake in moderate oven (350° F.) for about 1 hour. This recipe can also be made using about 2 1/2 cups ground leftover cooked meat; add 1 1/2 tablespoons shortening to ingredients and bake 25-30 minutes, or until bacon is cooked.

HOLLYWOOD MEAT CAKES

(Serves 6)

1 pound ground beef (lean)
1/2 pound sausage
1/2 cup soft bread crumbs
1/2 cup Quaker Oats, uncooked
2 teaspoons salt
1/2 cup tomato ketchup
1/2 cup water or stock
1/2 cup Worcestershire Sauce

COMBINE all ingredients except crumbs. Mix thoroughly and let stand for 10 minutes. Shape as 12 to 18 flat round cakes. Coat all with crumbs. Brown quickly in hot fat in frying pan, turning very carefully. Lower heat and cook until done through. Serve with a brown or tomato sauce, and cole slaw.

STUFFED SPARERIBS

(Serves 8)

4 pounds pork spareribs
4 cups soft bread crumbs
1 cup Quaker Oats, uncooked
1 cup chopped apple
1/2 cup onion, chopped
2 teaspoons salt
1/2 cup water

COMBINE all the ingredients except spareribs. Pat out in a greased baking pan cover with the spareribs, and sprinkle with salt, pepper and flour. Or spread stuffing on ribs, roll up and tie. Bake in a moderate oven (350° F.), about 2 hours, or until ribs are tender. Fine too for other meats.

TASTY VEAL LOAF

(Serves 6 or 8)

1 lb. veal (ground)
1/2 lb. beef (ground)
1/2 lb. pork (ground)
1/2 cup soft bread crumbs
1/2 cup Quaker Oats, uncooked
1/2 cup water or stock
1/2 cup Worcestershire Sauce
1/2 cup ketchup
1/2 cup Quaker Oats, uncooked

DISSOLVE bouillon cube in water and allow to cool. Or use 1/2 cup stock. Combine with all other ingredients thoroughly. Turn into greased loaf or ring pan. Brush with melted fat. Bake in moderate oven (350° F.) 1 hour.

ALL THIS... AND DELICIOUS, HEALTHFUL, NOURISHING BREAKFASTS, TOO!

Yes, a steaming bowl of delicious Quaker Oats is one of the best ways to start the day. And don't forget that the four morning hours make a major demand on your energy and stamina. Quaker Oats gives you Vitamin B₁ and other elements so necessary for glowing health.

"In England, where meat is rationed to a minimum, oatmeal is recognized as a bulwark of nutrition."

PRO-REC NEWS

Today in the Okanagan, people of all ages are asked to take part in the Pro-Rec summer activities which are held in the Kelowna Athletic Park every Wednesday night at 7:00 p.m. Bill Wilcox, Pro-Rec Chief Instructor.

Sunday afternoon saw the Kel-

owna No. 1 team go down fighting when they met Rutland Pro-Rec in the first softball game. Kelowna No. 2 beat East Kelowna on Monday night, and the game on Thursday night between Rutland and East Kelowna should be a very exciting one as both teams have a little practice to their credit. This game will commence at 7:30.

On Sunday afternoon both the Kelowna teams will meet for the first time at 3:00 in the Kelowna Athletic Grounds.

When frying, place a saucepan lid over the frying pan. It will keep in the steam, and the contents of the pan will cook more quickly.

EAST KELOWNA MAN MENTIONED

Lieut. G. Paterson In Story of Paratroop Attack on Italy

An article of local interest appeared in Maclean's Magazine which tells of the action in Italy of the paratroops, in which Lieut. George Paterson is mentioned. He is still a prisoner of war in Italy. Lieut. Paterson is the eldest son of Mr. and Mrs. J. Paterson.

A number of her old friends gathered at the home of Mr. and Mrs. G. Fitz-Gerald on Friday night in honor of Mrs. K. Flower, who leaves on Tuesday for Mount Lehman. Mrs. Flower has been a resident of East Kelowna for thirty-two years. During the evening she was presented with a travelling trunk, with the good wishes of all present.

The Misses Jean and Ivy Rogers, who have recently joined the R.C.A.F. (W.D.), leave next week for Rockcliffe Camp.

Charles Tucker is a patient in the Kelowna Hospital.

Mrs. Thornehold held a garden tea on Wednesday, May 28, which was well attended. This was in aid of St. Mary's Parish Guild funds. An interesting innovation was the tea supplied to visitors, this being made in the proportion of one-half dried raspberry leaves and one-half tea. Every one pronounced it good and a distinct saving of a rationed commodity.

LAWN BOWLING LEAGUE STARTED

Play in League Games Will be on Wednesday Nights—Club Opened May 24

The Kelowna Lawn Bowling Club held its opening day on May 24 under direction of President D. Macfarlane with the able assistance of Secretary Jim McLeod. The greens are in good shape and a fine turnout of members points to a successful season.

The club is inaugurating a league of teams representing local clubs and organizations in the city. It is planned to have the league games on Wednesday nights, starting at 8 p.m. A small charge will be made for players who are not members of the club.

The money paid by non-members will be credited on the membership fee if any player wishes to join the club later in the season.

Jap Strategy Lack Of Offensive Punch Shows Nips On Defensive

What is Japan up to? One would have thought that in view of the obvious activity in the United Nations camp, with conferences at Washington with high-ranking officers from India, China and elsewhere, with the Aleutian offensive, and with renewed action in New Guinea, the Japanese would have made some swift stroke to gain an immediate advantage. That they have not done so may not be a sign of weakness, but it seems to add further support to the theory that they intend to stand pat on the defensive line which they now hold.

The American attack in the Aleutians, the major conferences in Washington, and the renewal of Allied attacks in New Guinea suggest that a squeeze from all sides on the Japanese, if it is not under way actually, certainly is being planned.

Japan Seems Passive

The Japanese must be as aware of the global consequences of the United Nations victory in North Africa as are the Allies; they must be equally alive to the growing strength of Allied forces which in time will be thrown against them; yet on their side they seem to be completely passive and making no hay in the little sun that is left to shine.

This is one of the puzzling features in the present state of the Pacific war.

The recent succession of air assaults on Allied positions in New Guinea shows that the Japanese are aware of a sharp new threat to their Salamaua and Lae bases, but these raids hardly add up to a major action.

Beaughtlers Useful

Meanwhile, after a series of light jabs over a period of two weeks, General Douglas MacArthur's fliers have delivered a serious body blow at the Japanese airfield at Gasmata. It was the heaviest attack on this advanced enemy airbase for some time and followed closely a raid by Mitchell medium bombers.

The Mitchell's again were responsible for this mission. They were escorted by long-range Australian-manned Beaughtlers which are rapidly proving themselves a most useful all-round air weapon in this area.

The Beaughtlers swept in low and concentrated on enemy ack-ack positions, silencing many of them. The Mitchell's followed immediately and, flying at low level, dropped a heavy load of bombs on runways, dispersal areas, building installations and the jetty. As a result, the strip was rendered unserviceable and the jetty was destroyed as well as many buildings.

Gasmata is becoming one of the main targets for Allied attack in these parts. Although the Japanese no longer keep many planes there, their chief concentrations are farther afield at Rabaul, Kavieng and elsewhere—it is an important relay post for Japanese fighters and bombers on their way to Paupapua.

Japanese Losses Heavy

The Japanese force that raided Oro Bay recently was badly mauled when it was set upon by Lightnings and Kittyhawks. The total number of planes involved on both sides was more or less equal, but, after a fierce battle at about 20,000

"WHERE CASH BEATS CREDIT"

SUMMERLAND ORGANIZES DISTRICT

Southern Municipality Has Efficient Organization Formed to Handle Labor Problem During Picking Season

Hitler is not going to stop the farmers at Summerland, B.C., getting their crops in. They have formed themselves into a Commando Corps of Field Fighters under the Dominion-Provincial Emergency Farm Labor Service. The Summerland Board of Trade, schools and citizens generally are warlike in their determination to get all the crops harvested and shipped out to feed the armed forces of Canada and the embattled peoples of the United Nations.

Out of a total of 275 growers of fruit and vegetables in Summerland, 232 have signed pledges. They are requesting Summerland fruit and vegetable packing houses to make a deduction of one tenth of a cent per pound to establish a war chest for the use of Field Fighters of the area.

One hundred and twenty public and high school boys and girls have enlisted in the Summerland Field Fighters Corps and their parents have signed their attestation forms. The first target of these juvenile Field Fighters is the cherry crop. Under the leadership of Public School principal, A. K. McLeod, and High School principal, S. A. MacDonald, the youth of Summerland is waiting impatiently for the battle to begin, as soon as the cherries are ripe to be picked. The smallest boy in the battalion is red-headed Field Fighter Henry R. Daniels, who weighs only 74 pounds. He is said to be very steady up in a cherry tree. Weight is no consideration in a spirited community like Summerland and the parents of Gweneth Mary Lamcraft, weight 82 pounds, feel outside, open air work will prove to be a bank account of health for her.

"We were very successful here last year," said W. J. Beattie, Manager and Secretary of the Summerland War Agricultural Production Committee. The reason is CO-OPERATION. Everyone in the community helps. The packing houses do everything they can. The Board of Trade, under Reid A. Johnson, is taking a very active part. He is the C.P.R. agent at Summerland and knows everyone, because he has been there for 17 years.

Chairman of the Summerland War Agricultural Production Committee is 74-year-old A. E. Smith. He is a fruit grower living in Garnet Valley, about two miles west of the town.

He and Mr. Beattie say Summerland is one of the smaller communities of Canada that has sent a very large percentage of its youngest and strongest boys and girls off to fight the tyrants who seek to put the entire world in chains. Altogether 272 young men and women have left Summerland. Six of these have paid the highest price for Canada's freedom, their lives. They have been killed in battle.

It is these splendid youths, who are sorely missed in their home community, who inspire such deep determination on the part of every

Building A Better Home

Achievements, as a result of Quality, are always interesting to those who have a stake in their country and a future to build for.

As we now know, it was only as a result of careful planning, based on selection of the best men and material, that final and complete success of the North African campaign was possible.

In planning your home, or change in your present home, let quality of materials be the basis of your plans. In that way you help to build securely a better Province, and for yourself, without a doubt, a better home.

Study the Sidney Display at the Evening Show of B.C. Products—you will find there, the highest quality building materials available.

THE HEALTH DRINK THAT WINS FAVOUR BY ITS FLAVOUR

Why do more Canadians prefer Libby's "Gentle Press" Tomato Juice than any other kind? It's the flavour that wins favour. Prove that for yourself, by the taste test. If you don't say it's the best you've ever tasted, just return the label to Libby's and get double your money back!

Luscious, sun-ripened tomatoes ... picked in the freshness of a dewy morn ... rushed to Libby's

kitchens to be processed, packed and sealed within mere hours from the vine—small wonder Libby's "Gentle Press" Tomato Juice retains the maximum flavour and in healthfulness!

More Canadians enjoy more healthful goodness and more exquisite flavour in Libby's "Gentle Press" Tomato Juice. It leads in popularity because it leads in tastiness.

Libby's Patented "Gentle Press" Process is also used in making Libby's Catchup and Tomato Soup. Please note: Canada's pack of Tomato Products is adequate—there is no reason to buy more than your immediate needs.

man, woman and child there to save every possible pound of the crops this year. Summerland is to be one of the encampments of Field Fighters this summer and fall, united in a single purpose, to get all the crops in on time and packed for shipment to the battle fronts and the starving peoples of the United Nations, who are still holding the enemy at bay, as well as those in Canada who are making munitions and equipment of war for the armed forces of Canada. The active executive of the Summerland War Agricultural Production Committee is A. E. Smith, Chairman, W. J. Beattie, Manager and Secretary, Reeve C. J. Huddleston and District Agriculturist John Tait. They have many members on their committee and each one is doing his full part in the Summerland Field Fighters Corps.

FRUIT MEN TO OTTAWA

G. A. Barrat, Chairman of the B. C. Fruit Board, and A. K. Loyd, President and General Manager of B.C. Tree Fruits Ltd., will leave late next week for Ottawa, where they expect to conclude negotiations on the agreement between the B.C. fruit industry and the Dominion.

WESTBANK PROTESTS

From Page 1, Column 6
of war a bit brighter for us. Thanks to you all. None of us really have any kick. Cigarettes are our greatest problem. Might add that they go up another 2d or 4c again tomorrow. That makes them 2/2, or 5/2 for 20. Rather a lot for a soldier to pay. But if they are the only things that we have to do without during this war I guess that we should not grumble.

"In closing I thank each and every one of you, and hoping that you and yours are in the very best of health. "Heaps of all the best."
Yours sincerely,
Pte. J. PATTERSON,
5th Field Amb.,
R.C.A.M.C., C.A.O."

W.W.I. members at once felt over themselves to subscribe money for cigarettes for this soldier lad, though wonder was expressed as to whether their supposition that the government, not the people as individuals, feed the troops is correct. Further, should it so happen that the R.C.A.M.C. received some portion of fruit canned by W.W.I. (official R.C. label was enclosed), should it be given out so indiscriminately that one had received AT LEAST two cans, which he devoured by keeping "right on" and suffered in his "tummy" as a result?

The question is being asked, too, as to how many cigarettes Pte. J. Patterson will receive from sympathizing institutions besides Westbank, and, it is presumed, Oliver?

The work of canning Red Cross fruit is carried on in Westbank at least, and it is suspected in most places, by women who have full-time jobs which combine indoor and outdoor work, and the time and effort to do such canning means a real sacrifice of half-days which are stolen from tasks quite as pressing as the need for canned fruit for overseas. But to benefit civilians who have been bombed out or are otherwise destitute and short of necessary food, these women have taken deep pleasure—their reward—in the thought that they were helping those less fortunate than themselves. However, if such sacrifice is abused, there is no incentive to further effort, much less reward. It is the sincere hope of the W.W.I. that their doubts are ill-founded.

Refuse
The other business at the Institute meeting included a reply from the Okanagan Valley Health Board, respecting the indiscriminate dumping of refuse in the outskirts of the community. This letter pointed out that an existing condition such as this was a reflection on the community, and urged co-operation between Westbank Women's Institute and the Chamber of Commerce in an effort to make arrangements for more sanitary disposal of such refuse. It is expected that some concerted action will be taken by these bodies to provide a dumping ground for refuse distant enough from the community to be sanitary.

It was reported that Mrs. E. Lundin had volunteered to take charge of the packing of Red Cross garments, while Mrs. G. Mahon, of Westbank, was acting as president.

Westbank Women's Institute chose their President, Mrs. A. Duzsik, to represent them at the coming district convention of South Okanagan Women's Inst's, to be held in Penticton this month.

Jack Smith, who had lived in Westbank for some years, left last fall for Vancouver, but has returned to make his home here, having one of his sons, who is his bride, who is already acquainted here.

Mrs. T. B. Reece has returned to her home in Westbank following several weeks' visit to her parents in Manitoba.
Mr. and Mrs. Nelson Reece, whose marriage took place recently in their honeymoon spent at the Coast, and have taken up residence in the "Faulkner" house, where their many friends are planning a warm welcome for them.

Miss Frances Drought, nurse-in-training at the Royal Inland Hospital, is spending a holiday at the home of her parents, Mr. and Mrs. A. E. Drought, of Westbank.

The Misses H. B. Parkin, "Bill" Fuller, M. Evans and E. Hewlett, of Penticton, spent a recent weekend at the home of Miss Hewlett's mother, Mrs. W. H. Hewlett, Westbank.

Mrs. Watts, of Vancouver, is the guest of her sister, Miss H. J. Dobbin, at her home in Westbank.

BIRTHS

AVENDER—At the Kelowna General Hospital, on Thursday, May 27, 1943, to Mr. and Mrs. Jacob Avender, R.R. 1, Kelowna, a daughter.

GARRAWAY—At Kelowna General Hospital, on Thursday, May 27, 1943, to Mr. and Mrs. John Garraway, of Peachland, a daughter.

INGLIS—At the Kelowna General Hospital, on Thursday, May 27, 1943, to Mr. and Mrs. Charles Inglis, of Peachland, a son.

McINTOSH—At the Kelowna General Hospital, on Monday, May 31, 1943, to Mr. and Mrs. Walter McIntosh, of Kelowna, a daughter.

POSTLE—At the Kelowna General Hospital, on Monday, May 31, 1943, to Mr. and Mrs. Beverly Postle, of Kelowna, a son.

GONIE—At the Kelowna General Hospital, on Wednesday, June 2, 1943, to Mr. and Mrs. John Goni, of Kelowna, a daughter.

Salt beef is improved in flavor if a few small onions and a dessert-spoonful of brown sugar are added while cooking.
Government for 1943. In their discussion in Ottawa they will be joined by E. J. Chambers, of Vernon.

Local Officer Played Big Role In Commando Attack On Italy

Lieut. G. R. Paterson Headed Squad of Royal Engineers Which Blew up Bridges in Italy—Is Prisoner Now

Lieut. G. R. Paterson, son of Mr. and Mrs. J. H. Paterson, of East Kelowna, figures prominently in a story of the Commando attack on some Italian bridges some months ago, as recounted in the June 1st issue of Maclean's Magazine.

Lieut. Paterson was a member of the party of Royal Engineers which was dropped from planes over Italy in an attempt to destroy some key bridges. When the officer in charge of the demolition group failed to arrive on time, the command fell to Lieut. Paterson, who had to make some risky decisions.

Arrangements had been made for the party to be taken off by a submarine, but Lieut. Paterson was captured and is still a prisoner in Italy. The story of the raid, taken from a copy of the British record and as published in Maclean's is:

The target was some 1,800 miles from Great Britain. It was a bridge in the heart of Campagna, spanning the small strait of the Tindino. If it could be destroyed, supply facilities for that part of Italy would be seriously affected.

It was a job for men handy with explosives and trained in the art of demolition. It was entrusted to a small party of officers and other ranks of an air-borne division. The senior officer in charge of the force was Major T. A. C. Pritchard, and the command was under the direction of Wing Commander (now Group Captain) Sir Nigel Norman, Bart. The expedition was carefully planned and rehearsed in England, and eight Whiteys bearing parachute troops took off from an airfield in East Anglia on the first stage of their flight. Their destination was Malta, where they arrived on the same day.

Picture of the target area disclosed the existence of two bridges about 200 yards apart; that to the east, it was decided, was the one to be destroyed. Having done so, the paratroopers were to make their way to a point on the west coast of Italy, and there be taken on board a submarine.

Two days were spent in Malta making the necessary preparations, and then the eight Whiteys took off in the evening light. Six of them carried the parachute troops and their equipment, and two were loaded with bombs with which to create a diversion.

The rendezvous for the Whiteys was Monte Vulture, and five of them reached it on time. The sixth, aircraft "J", late in starting owing to a leak in the engine, failed to reach the neighborhood of the dropping area until 11.15, an hour and a quarter behind time. Unluckily, this had on board Captain G. F. K. Kelly, who had been in charge of the demolitions. As will be seen, Second Lieutenant G. R. Paterson, R.E., shouldered the responsibility and had to make some risky decisions.

A five aircraft in a good pattern round the target. Conditions were perfect; there was snow on the hillsides above the bridge, and the moonlight was fairly bright. At 9.42 p.m. with its officer only 50 yards from the objective. After collecting their weapons and forming up, they were ordered to search the firm bridge for a weak point.

The ordinary southern Italian type, low two-story houses, the farmer and his family living in the top story, while the ground floor was occupied by his head, Major Pritchard and Lieutenant Paterson had come up, but there was no sign of Captain Daly. Paterson at once inspected the bridge and found that the three piers supporting it were made of masonry, as had been thought, but of reinforced concrete more difficult to destroy by explosives. Taking a risk, he at once ordered the demolition party to the most pier. Although a number of containers had failed to leave the aircraft, he hoped that he would have with him explosives sufficient for the purpose.

While Paterson and his sappers were preparing the demolition, the other officers and men were posted as a covering party. A quarter of an hour after midnight the main charges were all laid. There was still some spare explosive, and Lieutenant A. G. Deane-Dumond, near him which crossed the Ginesera, a tributary of the Tragino. The track running over this bridge had been used in the construction of the objective, and it occurred to him that its destruction would hinder repair.

Major Pritchard decided to blow the charges at half-past twelve, and a minute before that time a single shot of gunpowder was fired as a warning to the covering party. At half-past twelve the object was achieved and half a minute later the small bridge blew up.

The task accomplished, the parachutists collected around Major Pritchard. He divided them into three independent groups under officers for the journey to the coast. He and his party set off westward and when dawn came, hid in a wood for the night. They moved out westward and kept in the heels by a road, skirted a little town, and then made good going along the road for the next four miles. They then struck southwest over the flank of the mountain, but before it was time to go to place to lay for the day. Their map marked a wood above them. They toiled up but only found snow as the dawn was breaking. They scrambled up to the snow and hid in a small cave and behind rocks.

Their tracks in the mud and snow led up to their hiding place. It was not long before a farmer came up and found them, and he gave the alarm. Then, from the top of the mountain, they watched the comedy of the search parties approaching in the growing light. First came the village dogs led by three pointers; then the village children, wondering where the dogs were going; then the women, racing after the children to bring them back, followed by the men going out to protect their womenfolk. Behind these they saw the organized parties, armed troops and police, who had taken longer to get going, slowly advancing in a semicircle around them. Any attempt at resistance would have ended in hurting the women and children. Major Pritchard had no choice but to surrender.

Their feat caused a sensation in Italy. The whole area was at once barred to neutrals, and there is no doubt that considerable consternation was caused. One Italian official announcement went so far as to say that it was impossible to conceal the fact that military circles considered the attempt a complete failure. Why it should have been thought necessary to conceal it was not explained.

PRETTY WEDDING AT RUTLAND

Miss Fern Felle United in Marriage to Russell Reiswig, of Winfield—School Track Meet

The Seventh Day Adventist Church, Rutland, was the scene of one of the prettiest weddings of the season on May 25th when Rev. Elder Herden, of Kelowna, united in marriage Fern Felle, daughter of Mr. E. H. Felle, and Russell Reiswig, son of Mr. and Mrs. George Reiswig, of Winfield.

The bride looked lovely in a floor length gown of white crepe, beautifully complemented by a flowing veil which miled from a sweet heart headdress. Little Yvonne Sanchez made an adorable flower girl in a dainty frock of yellow net, while Misses Ruby and Alfreda, two lovely bridesmaids in pink and blue net respectively, with matching gloves and hair adornments.

The church was beautifully decorated for the occasion. The groom was followed by Charles Gallagher, of Oyma, and Ross McDonough, of Winfield.

During the signing of the register, "I do" was given by the bride and groom. Following the ceremony a large reception was held at the Winfield Community Hall. A buffet luncheon was served to the guests, and was followed by a most novel program planned by the friends of the happy couple. The bride and groom were the recipients of many useful and attractive gifts which were presented to them at the end of the program.

Mr. and Mrs. Reiswig will reside in Winfield.

The Winfield Public School held a track meet on the school grounds on Friday afternoon, May 28th, which proved to be most exciting and entertaining. The number of parents in attendance was disappointing to the children, who participated with enthusiasm and good sportsmanship. The pupils were divided into two groups, Houses one and two, with the first going to House 2 with 118 points, while House 1 scored 108 points. Events were as follows:

Boys 7 and under: 1, Murray Ramsay; 2, Donald Arnold; 3, Keith McEachy.

Girls 7 and under: 1, Ruth Pringle; 2, Ruby Teramura; 3, Joan Shaw. Boys 8 to 9: 1, Raymond Simpson; 2, Ronnie Holtski; 3, Robert Laing.

Girls 10 to 11: 1, Pauline Simpson; 2, Lois Duggan; 3, Beatrice Crundell. Girls 12 and under: 1, Eva Edmunds; 2, Joan Mitchell; 3, Ruby Williamson.

Boys' open, 50 yds: 1, Alan Edwards; 2, Edgar Reiswig; 3, Ernie Gill. Girls' open 50 yds: 1, Dora Holtski; 2, Doris Williams; 3, Margaret Mitchell.

Boys 12 and under: 1, Andy Cook; 2, Jack Edmunds; 3, Lloyd Duggan. Girls' sack race: 1, Eva Edmunds; 2, Yvonne Hitchman; 3, Robert Laing.

Brood jump, girls 12 and under: 1, Joan Mitchell; 2, Eva Edmunds; 3, Ruby Williamson. Broad jump, boys open: 1, Dora Holtski; 2, Margaret Mitchell; 3, Sylvia Gage.

Brood jump, boys' open: 1, tie, Edgar Reiswig and Alan Edwards. High jump, boys' open: 1, tie, Alan Edwards and Andy Cook. High jump, girls 12 and under: 1, tie, Dora Holtski and Sylvia Ganz.

High jump, girls 12 and under: 1, tie, Joan Mitchell and Eva Edmunds. Three-legged race: 1, Charles Arrand and Herbie Simpson; 2, Ronnie Holtski and Raymond Simpson; 3, Robert Laing and Keith McCarthy.

Softball was won by House 1.

Mr. and Mrs. A. Milne have as their guests for a short time their daughter, Mrs. G. R. King, and little granddaughter, Joyce, of Vancouver.

Gilbert Berry, Douglas Elliott and David Lodge spent a very successful week-end fishing at Beaver Lake.

Mr. and Mrs. R. Berry, sr., have received word that their son, Corporal Eldred Berry, of the Canadian Parachute Troops, has been moved from Norfolk, Virginia, to Burlington, Vermont.

Mrs. J. Seaton was a visitor in Rutland for several days last week at the home of Mrs. Weighton.

L.A.C. Hume Powley returned on Thursday of last week to his station at Boundary Bay, B.C.

Alfred Berry, of Oliver, spent Empire Day week-end at the home of his parents, Mr. and Mrs. R. Berry.

Gwen Macdonnell, of Kelowna, spent several days last week at the home of Mr. and Mrs. E. Clement.

Mr. and Mrs. Bert Patterson are spending a holiday at their camp at Beaver Lake.

Yvonne, Frank, and Norma Jean Hitchman spent several days last week at the home of their grandmother, Mrs. Thibault, of Kelowna.

Mr. and Mrs. George Edmunds and Jack made a trip to Lavington over the week-end, where they visited Mr. and Mrs. Ernie Pow.

Mr. and Mrs. Gordon Shaw had as guests for several days last week Captain and Mrs. Kilpatrick, of Vernon.

All library members are advised ly advancing in a semicircle around them. Any attempt at resistance would have ended in hurting the women and children. Major Pritchard had no choice but to surrender. Their feat caused a sensation in Italy. The whole area was at once barred to neutrals, and there is no doubt that considerable consternation was caused. One Italian official announcement went so far as to say that it was impossible to conceal the fact that military circles considered the attempt a complete failure. Why it should have been thought necessary to conceal it was not explained.

WITH THE SERVICES

(Friends and relatives of men who are serving in any branch of His Majesty's Services are invited to send in contributions to The Courier for this column, either by mail or by phone 94.)

Word from Germany recently said that L/Cpl. George Berry, son of Ralph Berry, who is a prisoner of war and has been in hospital for the past three months, has been able to leave the hospital. L/Cpl. Berry said that the Red Cross parcels were wonderful and during his stay in hospital his diet was practically all Red Cross food. His medical officer while there was a New Zealander.

Word from Pte. O. R. Berry, son of Ralph Berry, who had been in hospital for some three months in Scotland, states that he is back with his unit again and feeling fine.

Squadron Leader F. S. Powley, A.F.C., R.A.F., son of Mr. and Mrs. W. R. Powley, of Winfield, has been transferred to Britain for six years' service in Egypt and India. He is now on bombing operations. In a recent letter Squadron Leader Powley states that he has received The Courier fairly regularly in India.

Since the war started very few letters reached him, but for some reason The Courier usually managed to get through. "Have not had a letter for some time," he wrote, "but had a Courier a couple of days ago and that helps a lot. It comes fairly regularly, sometimes two or three at a time and then a pause. It is very good of whoever is sending it to me to keep it up. I certainly appreciate it way out here and would like to thank the sender."

The Misses Jean and Ivy Rogers, East Kelowna, leave next week for Rockcliffe, where they will take their basic training with the R.C. A.F. (W.D.)

Petty Officer Anne Curtis, W.R.C. N.S., is expected to arrive in Kelowna this week from Halifax to spend her leave here visiting her sister, Mrs. Rupert Brown, Bernard Avenue.

Sgt. W. Appleton has been transferred from Port Alberni to Nanaimo.

Word has been received that A.W. R. P. Hewlett, R.C.A.F. (W.D.), has been transferred from Rockcliffe, Ontario, to Halifax, N.S.

A.C.I. H. W. O. Cretin, R.C.A.F., son of Mr. and Mrs. H. C. Cretin, Richter Street, has been transferred from Edmonton to Lethbridge, Alta.

Wren Nan Collett, daughter of Mr. and Mrs. H. C. Collett, who is with the W.R.C.N.S., has been transferred from Digby, N.S., to Deep Brook, N.S.

P.O. Charles E. Dore, R.C.A.F., Calgary, spent the week-end in Kelowna, the guest of his parents, Mr. and Mrs. G. L. Dore.

Pte. Victor Irwin, a former graduate from a class of skilled mechanics, at Fort Knox, Kentucky, from the Armored Force School Tank Department recently. The Armored Force School, one of the largest technical institutions in the world, graduates many times more students each year than the largest civilian university or college.

Philip Weddell, son of Mr. and Mrs. E. C. Weddell, Pender St., left on Tuesday for Vancouver, where he will report for duty with the R.C.N.V.R.

R. A. Stubbs was among a group of pilots who graduated recently from R.C.A.F. training centres in the prairie provinces.

Petty Officer Frances Treadgold, W.R.C.N.S., daughter of Mr. and Mrs. T. Treadgold, arrived in Kelowna on Saturday from Ottawa, to spend her furlough visiting her parents.

Word has been received by Mr. and Mrs. E. C. Weddell that their son, Lieut. E. A. H. "Ted" Weddell, has arrived safely overseas.

Staff Sergeant C. E. Campbell has returned to his station at Hamilton, after spending his furlough in Kelowna visiting his wife.

Kelowna was represented at the recent graduation of a large class of officers at Petawawa as Lieutenants (Artillery) following a qualifying course at A-2 Canadian Artillery Training Headquarters, by R. D. Pearcey, son of Mr. and Mrs. G. F. Pearcey, Park Avenue.

P.O. Jack Gordon, R.C.A.F., is visiting his parents, Mr. and Mrs. R. J. Gordon, Pender St.

NATIONAL SELECTIVE SERVICE

Second Compulsory Employment Transfer Order

Notice to Certain Employers and Employees

that men in specified lines of civilian employment, in classes already designated under National Selective Service Mobilization Regulations, must report for interview not later than June 15th, 1943, at an Employment and Selective Service Office.

A. Objectives: This Second Order makes available for essential employment the services of men in classes already designated under National Selective Service Mobilization Regulations, who are now employed in specified non-essential employments.

B. EMPLOYMENTS COVERED BY THIS ORDER: Men of the specified categories are covered if now employed as:
(1) Any occupation in or associated with retail stores;
(2) Any occupation in or associated with the manufacturing of feathers, plumes and artificial flowers; chewing gum; wire lace goods; greeting cards; jewelry;
(3) Any occupation in or associated with the distilling of alcohol for beverage;
(4) Any occupation in or associated with the factory production of statuary and art goods;
(5) Any occupation in the operation of ice cream parlours and soda fountains;
(6) Any of the following occupations: bus boys; chambermaids; cleaners; custom furriers; dancing teachers; dish washers; doormen; starters; greens keepers; grounds keepers; porters (other than in railway train service); private chauffeurs.

C. AGE AND MARITAL CLASSES OF MEN COVERED BY THIS ORDER:
(a) Every man born in any year from 1917 to 1924 (inclusive) who has reached age 19;
(b) Every man born from 1925 to 1916 (inclusive), who, at July 15, 1940, was unmarried, or divorced or judicially separated, or a widower without child or children;
(c) Every man born from 1925 to 1916 (inclusive) who has become a

widower since July 15, 1940, and is without child or children now living;
(d) Every man born from 1925 to 1916 (inclusive), who, since July 15, 1940, has been divorced or judicially separated.

D. Procedure to be Followed: All men as defined above must report to an Employment and Selective Service Office not later than June 15th, 1943. Men resident outside a city or town having an Employment and Selective Service Office, too far removed to call personally, may write to the nearest office, and await further direction.

E. OBLIGATIONS OF EMPLOYERS: When directed to accept employment, men referred to in Paragraphs B and C above are required by the Regulations to follow the direction.
F. OBLIGATIONS OF EMPLOYERS: It will be illegal for any employer to retain in his employment after June 15th, 1943, any man referred to in Paragraphs B and C above, unless a special permit has been obtained from Selective Service.
G. Transportation: Provision will be made for transportation of men moved to a new place of residence.
H. Appeals: If objecting to transfer to other employment when directed, a man may enter appeal with a Court of Reference within 7 days.
I. Penalties: Penalties are provided for either employer or employees failing to comply with this Order.

Men referred to above must present documents at the employment office, indicating compliance with Mobilization Regulations

DEPARTMENT OF LABOUR

HUMPHREY MITCHELL,
Minister of Labour

AQUATIC RIPPLES

The club can go full speed ahead now that Max dePuyffer and son Ralph have done their annual job of renewing the flower boxes. This is one of those little chores that receives no publicity but adds a lot to the gay appearance of the clubhouse. Thanks, dePuyffers.

The Ladies' Auxiliary has its big moment this afternoon when the Aquatic is officially opened with a variety band concert and dance at the clubhouse. The raffle has gone over with a bang and Mrs. Elsa Nordman and Mrs. Hugh Horne each sold over one hundred tickets last Saturday night. No man could resist them apparently and no wonder!

The tea house will be under efficient management with the Association running the show instead of renting the concession. Final plans call for the tea room to be managed by two efficient ladies who have had experience in the work. The idea looks good and should be a money maker in spite of rationing problems.

The C.P.R. pile driver crew drove the piles for the pool without waiting any time and it will add a lot to the club. It would have been nice if it could have been spotted a few feet farther out in the lake but the beach drops off mighty fast and with the expected rise in the lake this month it will be just about right.

Aquatic memberships are on sale and the directors have lists to contact so be ready with the moah when you are approached. Last year was tops for membership but even that record can be broken. After all, an Aquatic membership should be a "must" with every resident of Kelowna. Look what it gets you!

Fishing on the lake is wonderful right now and lots are being caught only a few yards from the club house. The boats have been painted and what could be finer than spending a couple of hours on the water and getting your fish for the week in the bargain.

The hop tonight will have Mayor and Mrs. McKay as guests of honor and His Worship will open the Aquatic season with a few words in his usual happy vein. Turn out with your best girl and do your share in the giving of the best military dance band in the West.

Kelowna Women Pass V.A.D. Tests At Kelowna Hospital

First Group of Volunteer Nurses Make Splendid Showing in Examinations — Eligible for Service

The first group of eight Kelowna volunteers to qualify as V.A.D.s passed their final tests with flying colors at the Kelowna General Hospital last week.

Four members of the Red Cross Corps, Mrs. L. H. Jones-Evans, Miss Ariel Elmore and Miss Norma Lloyd, were among the successful candidates. These ladies have the St. John's Ambulance First Aid and Home Nursing certificates and, with the completion of their 260 hours of practical work and instruction in the hospital, are qualified as V.A.D.s and may be accepted into the military services with the rank of an officer.

Mrs. Jean Cabellu, Mrs. Amy Cook, Miss Marjorie Gooderham and Miss Mary Bull were the other candidates and will be fully qualified on completion of the St. John's course in First Aid.

All the candidates did very well on their final tests, the marks being over 80 per cent in most cases, with Mrs. Jean Cabellu leading the class with a perfect 100 per cent.

The V.A.D. course was agreed upon last year by the Canadian Red Cross Society, the Canadian Hospital Society and the Canadian Nurses' Association. The shortage of trained nurses led these organizations to outline a course of instruction which would equip many volunteer workers to assist in local hospitals in time of emergency, or to enter the military services as V.A.D.s. To obtain full standing candidates must have the St. John's Ambulance First Aid and Home Nursing certificates, and complete 260 hours of instruction and practical work in the hospital, obtaining experience in medical, surgical and obstetrical cases.

The course in the Kelowna General Hospital started last January, with the Lady Superintendent, Mrs. M. E. Timot, in charge of instruction and what could be finer than spending a couple of hours on the water and getting your fish for the week in the bargain.

BOYSCOUT COLUMN

1st Kelowna Troop
Troop First!
Self Last!

Orders for week commencing Friday, the 4th of June 1943:
Duty: Orderly Patrol for week, Beavers; next for duty, Otters.

Rallies: The Troop will rally at the Scout Hall on Friday, the 4th of June, and on Tuesday, the 8th of June, next, at 7:15 p.m. In addition to these two rallies we shall probably have another full dress rehearsal for our Entertainment which has had to be advanced to the 11th of June, Friday, but of this, notice will be given to the members of the Troop independently of this Column. At the moment we are not sure when we can get the Hall. As the Troop membership is now so low our Cub Scouts will be helping us out with the sale of tickets this year, the price of which is 35c for adults and 25c for children. Scouts and Cubs in uniform are not to hold a ticket. This is the one occasion of the year on which our Troop asks for any financial assistance from the public, which it has so well received in the past, so we ask for a generous purchase of our tickets once again.

We, together with all those who use the Scout Hall, are deeply grateful to Mr. Jack Gubraith, who has repaired our badly leaking Scout Hall roof and then delivered to our Association a receipted bill for all his work and materials. This was indeed a much appreciated service, and we are sure that our members will find it of interest to all the Groups in the District.

We are all also very appreciative of the good work which Scoutmaster Yochim of the 2nd Troop and his willing Scout and Rover Assistants are doing with the lawn and trees at the front of the Hall. Further tests just passed have been the Carpenter by P.L. Phil Noonan before Mr. Hadfield, and the Leather Worker and Gardener by 2nd Pat Noonan before Miss E. B. Walker and Mrs. A. Crispman respectively. Our many thanks to these kind examiners.

After our recent visit, Dr. W. T. Kergin, our Provincial President, returned to Vancouver, he wrote the following letter to the District Commissioner, which we thought would be of interest to all the Groups in the District:

"Mr. Solway, and I got back on Saturday from the Southern Interior of B.C. having had a pleasant and encouraging trip when one considers all the difficulties under which the Boy Scout leaders are now carrying on.

It was a great pleasure to me to meet you and some of your Scouters and Committee members. It would be presumptuous on my part to offer suggestions but I have developed three or three definite ideas on this trip regarding Scouting which perhaps you will pardon me for mentioning. To hold our Scout Troops at anything like full membership seems very, very difficult. Perhaps we could well concentrate more on Cubbing. It seems to me that it would be helpful if in this regard an effort were made to get more Cub Leaders, and particularly in the present shortage, lady Cub Leaders. There has been in some districts a tendency for Cubs who have gone through their Packs not to go on into the Scout Troops. This is a distinct loss to the movement, and it occurs and it occurs to me that provision should be made so that the graduation of Cubs into the Troops should be definitely developed and provided for. This end possible if it would be well to give more thought to the training of Cub Leaders so that not only would they have a love for boys and an interest in their work, but also the knowledge to carry on that work in the best way.

"I believe that Scouting in the Centre Okanagan is in very good hands, and I shall be interested in reports from your areas and look forward to meeting you again. Sincerely yours,

"W. T. KERGIN,
Provincial President."

KELOWNA LOSES SECOND SPENCER CUP FIXTURE

Vernon Scores Second Victory in Two-Innings Match Played at Kelowna

Playing on their home ground on Sunday afternoon, the Kelowna cricket eleven failed to obtain revenge for their defeat by Vernon in the first Spencer Cup fixture of the season, played at Vernon on May 16. Two full innings were played, Vernon taking first knock.

Vernon lost the first three wickets for a total of only 10, but V. Richards, C. Dunkley and R. Richards then made a stand, the fourth wicket falling at 37 and the fifth at 55. P. Clarke added 18 to the score, but the last three batsmen were unable to beat the zero mark, and the innings closed for a total of 81. It was featured by three brilliant catches by W. Carr-Hilton, which disposed of the highest scorers on the Vernon side and thus helped materially to keep down their total. Their Kelowna bowling was punished rather freely, R. Richards' score of 17 consisting of four 4's and a single; while Clarke hit three fours in his 18.

With the exception of Johnson and Matthews, who batted patiently if not brilliantly, the Kelowna first innings was a melancholy procession to and from the wickets. The first wicket fell with the score 9, then it was 2 for 10, 3 for 10, 4 for 10, 5 for 11, 6 for 15, 7 for 15, when Matthews came in and "stonewalled" for the rest of the innings, which, however, totalled only 40 and was over within an hour.

It was decided to continue the match for another innings, and Vernon fell only two short of the total of their first effort, running up 79. Kelowna showed marked improvement in their second innings, G. Kennedy, with a brilliant 33, which included five 4's, being top scorer in the match. Temple and Carr-Hilton added 16 and 15 respectively, and the innings closed for a total of 86, leaving Vernon winners by a margin of 34 runs.

In their first innings the Kelowna batsmen did not seem at all at ease and they played nearly every ball delivered to them with extreme caution. Vernon strategy profited by this apparent timidity and disregarding the possibility of boundaries being slipped through, their fielders were placed close in and Kelowna hits were kept down to singles and doubles, only four 4's being scored in the innings. On the other hand, the Kelowna fielders were spread out in the orthodox manner and few possible boundaries were stopped short, ten of these shots being made by the Vernon batsmen in their first effort. In their second innings Kelowna played with more confidence and hit out, securing ten of these profitable strokes.

Kelowna has good material, but it is quite evident that batting practice is badly needed. The bowling is good and fielding is very smart and accurate, so there is only one weakness to be remedied, and it should be possible to solve that problem by diligent work at the nets.

The next match will be played in Vernon, against the Army, on Sunday, June 13.

TAKE CARE OF MATTRESSES

Restmore Plant Is Busy On War Production

In common with all modern factories, Restmore Manufacturing Co., Limited, of Vancouver, are busy with governmental contracts for materials that help to hasten the day of Victory. A small percentage of their usual output of Restmore furniture, chests, beds, mattresses, pillows, is still available through local furniture dealers all over British Columbia.

Seldom has the necessity for economy come home to as many as it has at the present time, and the conservation of what one has is even of greater concern than the ability to purchase new merchandise. For this reason, Restmore impresses its slogan "Good for the rest of your life" upon those who own Restmore furniture or mattresses. It is a time to take care of all furnishings in the home so that they will reach peacetime days in fair condition. The three hundred employees of the Restmore plant will soon be swinging their machines back to civil enterprises again.

B.C. ROPE USED WORLD OVER

At Sea And On Land B.C. Made Rope Is Used by Fighting Men

Perhaps never before has rope played such an important part as it has in these last few years of war. According to the Canada Western Cordage Co., Ltd., their products are being used the world over. Not only in the great naval ships, but also in the Merchant Marine and in all types of craft, including those of the fishing fleets and sailing schooners on our coasts as those in other waters. This Company's products are all made in B. C. and present one of the best known brands among the many other well-known products manufactured in British Columbia. "Sentry" Brand rope can be found doing many land jobs as well, for the Company manufactures all qualities, types and strengths for almost every known purpose.

When cooking pancakes, dip the spoon in milk or water and the batter will drop off the spoon easily.

Light Fruit Crop Indicated In Horticultural Crop Bulletin

Stone Fruits Poor in North—Cherry Crop Spotty—Vegetables in Need of Moisture

The second news letter issued by the Horticultural Branch of the Provincial Department of Agriculture crops and varying conditions in the estimated yield of fruits. Following is the portion of the report covering the Okanagan and Kootenay districts:

Kelowna

As reported May 27th: The weather continues dry but is warmer. Blossoms are all off and indications are that the set of fruit in most orchards will be even lighter than the blossom indicated. Crops generally are making good growth.

Growers are busy applying the calyx spray. Indications are that worms will be entering the apples very soon. Moths are active and some egg laying has taken place.

Small fruit indications are that the crop will be about the same as last year.

Tomato growers have been busy setting plants in the field during the past week.

Westbank, Peachland, Naramata, Summerland

As reported May 26th: Since our last report the weather has turned from cool to warm, and this week with very hot, with very few light showers intervening and with much wind. Soil moisture is rapidly receding and a good rain is badly needed, especially for all vegetable crops.

Irrigation is in order for the orchards, which show need on the lighter soils. The cherry set is very variable, some light, others showing fine crops. Apples are doing fairly well, but there are trees in many orchards now showing weakness through winter injury. Plums and prunes showed heavy blossom, but the set so far is somewhat doubtful. Bartlett pears have set better in many orchards than was at first expected, but a heavy June drop is anticipated. Other pear varieties show fairly even sets. Apples in all districts appear to be setting well at blossoming time. This crop will be lighter than last year. Cherry aphids are appearing and many growers are attending to control measures. A few peach aphids have appeared, but are not expected to be as troublesome as last year. Growers are busy applying the first or calyx spray under favorable weather conditions.

Tomato planting is now over and all first plantings escaped the recent late frosts. Onion fields are doing fairly well and hand thinning and weeding are well in hand. These plants show a slight improvement over last year. The potato acreage shows a considerable increase.

Penticton, Kaleden, Oliver, Osoyoos, Keremeos

As reported May 26th: The weather has turned warmer but still continues very dry. The weather has increased the run-off from the various creeks, but the heavy run-off has not commenced. Growers are busy getting on their first codling moth sprays throughout the area.

This week-end shall see all the cantaloupes and tomatoes transplanted to the fields. Pasture lands are very dry and need rain badly.

Salmon Arm, Sorrento and Main

As reported May 26th: Low temperatures with light frosts at night continued up to the 17th inst., but since that date temperatures have risen and weather conditions have been more seasonable. There has, however, been practically no rain, and the surface soil is becoming very dry, although there is plenty of moisture at depth. These conditions are retarding the germination and development of shallow seed vegetable and field crops, and for these rain is badly needed.

There has been a considerable improvement in the condition of the fruit buds in the orchards during the past two weeks. There is a fair show of bloom on apples at Salmon Arm and Sorrento, and weather conditions have been favorable so far, but it is much too early to forecast how it will set. Delicious apples are showing particularly heavy bloom. At Kamloops the bloom is off and the calyx spray applied, while at Salmon Arm application of the calyx spray is just commencing. The cherry crop will be very light, practically no Bings and very few Lamberts.

Strawberries are just beginning to bloom and at present look very promising. Raspberries show much variation in degree of winter injury, some plantings looking more promising and others poor. The total tonnage should be slightly more than last year.

Planting of tomato acreage in the Ashcroft and Kamloops areas has been much delayed by the unseasonable weather, but the work is now about completed. So far there has been no loss from frost. With the advent of the warmer weather of the last ten days, vegetable crops in general are now making fair development.

Armstrong, Vernon, Oyoama, Okanagan Centre, Winfield

As reported May 28th: Since our last report there has been warmer weather with considerable wind, and this is causing a rapid drying out of surface soil. The total amount of ground crops at present is a 24 to 48 hour rain.

In the tree fruits, all varieties, with the exception of Rome Beauty, are now past the blossom stage, but it is rather early to anticipate what the set will be. There is evidence of considerable blossom slough on some prune and McIntosh blocks. Growth is still slow and bud weakness from frost injury is now quite noticeable in some varieties. This is showing up in scanty and under-sized leaf development.

In the small fruits, it is now evident that the raspberry crop will be very light, as in the northern sections of the district there has been the most severe bud and cane injury experienced for a number of years. The possible yield will now be governed by weather conditions through the development period. Black currant plantations are also showing bud injury to a greater or less extent, and this will cause a reduction in yield. Also there is a general weakness in many plantations and prospects are for not better than 50 per cent of a normal

B.C. MILK HELPED WIN IN AFRICA

Pacific Milk Captured by Rommel and Retaken by Eighth Army

At the instance of the British Ministry of Food, Pacific milk was shipped overseas. A number of cases were reported captured by the Germans in Tunisia and later recovered by the forces of General Montgomery. In this laudable war effort a shortage developed. Grocers could not get supplies and stocks everywhere became depleted. But shipments are returning to the trade and it is expected that supplies will soon be available.

Pacific milk comes from the fertile Fraser Valley, from government-inspected, pedigree herds. It is a British Columbia product. British Columbia is the centre of its payroll and head office and the home of its owners.

It began here in 1916. Since then it has grown in favor, its advance due to richness, purity, freshness and particularly to a fine natural flavor.

"Flavor," says an authority on milk, "is the sum total of all qualities judiciously preserved."

One of the chief factors of this excellence is the vacuum seal, a better type of packing which keeps the milk at its best. Pacific is the only milk packed in Canada in this way. This vacuum seal is borrowed from dry foods. Observing its good effects, an investigation was begun to convert the process to liquids, and at length a method was found that placed Pacific milk under this protection. By this means, purity and flavor are secure, preserved until the milk is opened.

Pacific milk is irradiated for Vitamin D, a nourishment essential to infants and children, if growing teeth and bones are to grow strong. It contains 7.8 per cent butter fat. When diluted equally with water, it is equivalent to high quality whole milk of 3.9 per cent butter fat.

Pacific milk has gone almost to the Arctic Circle and has kept through the heart of an Arctic winter. It has also gone to the South Pacific Ocean. This comment comes in a letter from the minister of a Methodist mission in the South Pacific.

"Never before have I opened canned milk of any brand whatsoever and been so well satisfied as with Pacific Milk."

DELNOR DEMAND EXCEEDS SUPPLY

Frozen Fruit Products Make Many Friends

Ever since this province was introduced to fresh frozen fruits and vegetables by Delnor, there has been difficulty in producing sufficient for the demand. In fact, as you read this item, there are practically no Delnor products available.

Some seventeen varieties of fruits and vegetables are packed under the Delnor label and each has its enthusiastic users. The phrase "fresher than fresh," applied to frozen foods simply means that

crop. In the vegetable crops, the dry, windy weather is retarding development and all such crops are badly in need of rain, although some irrigation is now being applied. The stands of some of the seeded crops are patchy on account of poor germination and in the very early planted potatoes there has been considerable rotting, making these stands quite patchy. Tomato planting is almost completed and the acreage of this will be below 1942.

Most of the vegetables required for the dehydrator plant are now in the ground and earlier plantings are making good progress.

The general pest conditions are not severe, although the flea beetle is very general and is severely hitting some crops, particularly cabbage and beetroot, also the radish and turnip crops for seed purposes. Immediate dusting for this pest would be well advised. Cutworms have not caused a great deal of damage, and the work of the onion and cabbage root maggots is just now becoming evident. There is now a steady emergence of first brood codling moths and the completion of the calyx spray should be made by June 3rd at latest. Providing that spraying conditions are satisfactory, there should be no let-up in growers getting on their first three applications.

In field crops, the fall wheat areas appear to be quite good, but spring grain and some of the dried areas appear quite patchy through slow and poor germination. The first crop of alfalfa in many fields has made rather poor growth and the general yield will be below average. Pastures are still slow in their growth, and here again rain is badly needed to improve development.

The livestock situation is very satisfactory in that there has been an exceedingly good lamb crop as applicable to the flocks as a whole. The spring litters of hogs also appear to be very good and the young pigs are quite thrifty. The dairy and beef situation is about normal, but weather conditions over the past winter have necessitated a long heavy feeding program, and in consequence feed stocks are running quite short, and rapid growth of pastures at this time is an urgent need to ease off the farmers' feed problems. There seems to have been a very healthy advance throughout the district in poultry flocks, which should prove beneficial both in the increase of egg production, also in alleviating the meat shortage problem.

Kootenay and Arrow Lakes

As reported May 25th: Moisture conditions are good and strawberry and raspberry plantations show good bloom, with small winter loss. Cherry crop appears excellent with heavy bloom, and pears are also setting well. The apple crop appears about 75 per cent of normal.

PENTICTON EMPLOYEES FORM UNION

Will Negotiate With Municipal Council For Wage Increases

Penticton municipal employees.

from the dewy freshness of the garden to the package is so short, the product is actually fresher in taste and condition than the fresh fruit, berries or vegetables purchased on the open market.

The new crop peak of Delnor products will be announced the moment it is available this summer. In the meantime, remember the name Delnor—and the fact that it represents only B. C. fruits, berries and vegetables packed and processed by a 100 per cent B. C. company.

other than those working in the electrical department, have disbanded their employees' association and have voted to form a local of a C.C.L. union of municipal employees.

The step follows the recent decision of the Regional War Labor Board upholding the Penticton Council's wage schedule over that submitted by the employees, who asked for an increase in wage rates.

A negotiating committee has been appointed which will seek to negotiate a wage agreement with the Municipal Council for submission to the Regional War Labor Board for approval.

A. S. Gough was elected president of the union, with W. H. Murfitt, vice-president, and Mrs. Alice Howsum as secretary-treasurer. Danny O'Brien, C.C.L. organizer, addressed the meeting that voted almost unanimously to affiliate with the C.C.L.

PROVINCE ASSISTS B.C. INDUSTRIES

Department of Trade and Industry
Gives Valuable Co-operation

About a year before the war broke out, the newly created Bureau of Industrial and Trade Extension, as a unit of the Department of Trade and Industry, planned its usefulness as a clearing house for governmental assistance in trade and industrial development. This concept emphasized the need of centralized and co-ordinated effort, and from the outset the work was planned to avoid duplication with the federal departments at home and overseas. In this way it was found possible to secure the assistance and support of the Ottawa authorities, and the work of the Bureau has developed in full co-operation with them and with the Trade Commissioner service overseas.

In all trade and industrial endeavor it was felt that the first essential was organization at the production end, which meant complete co-operation with all trade associations, boards of trade and other organizations in the province, to win their confidence and secure their support in a working plan to assist the industries of the province. The main elements of such plan may be summarized under the following headings:

- (1) To act as a clearing house in approaches made by firms and individuals.
- (2) To act as a clearing house for the Trade Commissioner service overseas, in presenting a consolidated report to them on production conditions and on the export position for selected items of supply.
- (3) To assist the Department of Trade and Commerce, Ottawa, in matters affecting their relations with industrial and commercial organizations, firms, banks, export and import houses and other business concerns in the province.
- (4) To present the British Columbia picture, on industrial and transportation matters, in approaches or appeals to federal authorities.
- (5) To co-operate with the Federal Trade Commissioner service in the different countries.

Special Products Board
In more than one instance the Department has been able to assist in a practical way under wartime conditions. As an example, the Trade Commissioner is the agent for the Special Products Board at Ottawa, who, in turn, are the purchasing agents for the Ministry of Food.

In its shipments of fruit and fruit pulps from the province the Department of Trade and Industry has acted as shipper, arranging all space and finance arrangements and effecting a centralized scheme of co-operation with banks, warehousing facilities, producers and others, thereby moving a large tonnage of jam stock to the United Kingdom. This plan in 1941, when over three thousand long tons of British Columbia fruit and fruit pulps in SO2 solution were sent to the United Kingdom. Varieties included strawberries in SO2, raspberries in SO2, prune pulp, greengrape pulp, black currant pulp. The same machinery was used last year, although crop and other conditions resulted in a much reduced tonnage. It is ready for any movement that may be possible this year.

Peat Moss Control
As another example, acting for the Metals Controller, the Department has a clearing house for the entire peat moss movement to the United States, where sphagnum peat moss is used in the manufacture of a vital war metal.

The whole industry is under government control. When the restrictions were first imposed, peat moss was placed under export permit, and permits were restricted to provide for the wartime requirements. This machinery, however, did not provide effective overall control of the production, or access to supplies, and the position was further defined in July, 1942. At that time, peat moss was declared a vital war metal, all trading in it placed directly under the Metals Controller and administrative authority for the control was passed to the Department of Trade and Industry of the province.

Post-War Industrial Rehabilitation
A follow-up of the existing departmental machinery will undoubtedly be used in post-war industrial rehabilitation—in fact has already been used in the part played by the Department in the work of the Industrial Advisory Committee to the Post-War Rehabilitation Council.

It is felt that the enabling plan can be practical under all industry headings. In particular it is felt that the Department of Trade and Industry will have a part to play in the assistance which can be given to new industries—the small factories who are engaged in production with small payrolls, who won't know where to turn when the material which they are now pro-

SECONDARY INDUSTRIES IMPORTANT

Manufacturing Of Consumer Goods Will Play Important Part In Post-War Period

The extent of British Columbia's mounting industrial contribution to the war effort is becoming clearer with every month that passes. New peaks in production have been reached by our basic industries of mining, lumbering, fishing and agriculture.

But the most astounding expansion of all since war's outbreak has been in B.C.'s secondary industries, those now turning out new products to join hundreds of long-established brands in bolstering the fighting strength of the United Nations.

B.C. products, like those which carry the name NABOB, a favorite brand on the home front in peace or in war, are now being shipped to every battle front where Allied soldiers are fighting. The quality of these products—NABOB among them—ranks with the best in the world.

Until recently, British Columbia's progress stemmed chiefly from her position as a primary producer. Today, however, Kelly, Douglas & Company, like many another British Columbia industry, realizes the enormous importance of manufacturing to the future of the province, for Kelly, Douglas has shared in and contributed to B.C.'s growth for more than forty years.

For this future, it is essential that the current expansion of our secondary industries be retained when the war is over. By secondary industries are meant the manufacturers of consumer goods. The products of B.C.'s secondary industries are not secondary in quality. Deeds of the province to the sound quality has given NABOB products pre-eminence in their field, as it has to countless other B.C. products, at home and abroad. This principle is a major reason for the phenomenal growth of our secondary or manufacturing industries.

To retain this growth, however, and to increase it in the years ahead is a responsibility which squarely with the people of the province. Here and now, since indiscriminate buying is diminishing as products which normally flow elsewhere from other places flow elsewhere to answer wartime demands, British Columbia people should become B.C. product conscious. For, after the war, B.C. product consciousness must put B.C. men and machines to work in the greatest peacetime era of manufacturing the province has ever known.

The makers of NABOB products know that the making of B.C. products by B.C. people for sale in turn to B.C. people is sound common sense, both in peace and in war. For one thing, buying B.C. products means saving freight space for the shipment of war material—that would otherwise be occupied by similar imported goods. Then, again, after the war British Columbia will have to furnish jobs for thousands of men. If we have the industries, we will have the jobs, and one sure way to keep and nourish and sustain these industries is to buy B.C. products.

Finally, the Pacific Coast will experience large-scale industrial expansion in the peace to come. British Columbia can share in this expansion if her industries have the backing of her people, her material factured products their unflinching support.

Buying B.C. products is not only a patriotic principle today—it's a promise of prosperity tomorrow. The habit of saying, "I want a B.C. product," formed now during the war years, will bring its sure reward in the years of peace that lie ahead.

ducing under sub-contracts is no longer needed.

"Builds B. C. Payrolls"

The
Choice of
Thousands

Now, with the scarcity of so much goods, is the right time to hold B.C. Products' Week. Now things available ought to be made known. And so Pacific Milk welcomes B.C. Products' Week at Kelowna.

"Why is Pacific Milk the choice of thousands?" asked Mr. H. P. He knew Pacific Milk well. "I once knew an ailing baby. When nothing else would agree with it Pacific Milk did. It is some desired family requirements, nicely met like this, that makes Pacific Milk the choice of a family."

"One thing, people like the vacuum seal. Pacific Milk is extra rich, pure, has the natural flavor. The vacuum seal makes these qualities sure. The consumer gets them. And when in addition the consumer discovers Pacific Milk lasts longer, Pacific becomes the choice of that home. Other people find out these same things, Pacific spreads among consumers, and so becomes the choice of thousands."

BEANS CONSIDERED BEST CROP FOR VICTORY GARDEN

Will Grow In All Soils And Do Not Deplete Soil of Nitrogen—Three Types Should Be Grown

Beans are a recommended crop for the Victory Garden, as they give more for the money and time than most other crops. For example, peas and corn, both popular delicacies, take much effort and time to grow yet yield comparatively little in return.

Here are more reasons why the experts recommend beans so highly: They produce heavily; they can be eaten as green beans, or they can be dried and stored for winter use; their soil requirements are easy to meet, and they enrich the ground because of the nitrogen-fixing nodules on the roots.

Most beginners are surprised at the number of different kinds of beans that appear in the average catalogue. There is actually a bean for almost every purpose.

For fence covers, trellises or picturesque "tepees," you can grow pole types of both green and yellow snap beans. The big, meaty limas fill the same classification. Bush beans, green and yellow potted kinds as well as the large and small limas, can be used to fill sunny rows as soon as you have completed them of peas, lettuce or other early crops. But don't let the staggering number of types and varieties confuse you. If you devote half of your total area to bush beans, a quarter to pole beans and a quarter to limas, you will enjoy beans over a long season. The experts declare that a total of 200 feet of rows will take care of a family of four people and leave plenty for canning.

Beans will thrive in a wide variation of soils, from heavy clay to light and sandy types, provided the soil is warm and there are sufficient nutrients. Unlike root crops, which should not have manure spaded in the ground just previous to planting, beans will appreciate plenty of manure in the soil. It increases the vigor of the plants and the size of the beans.

It is advisable to inoculate bean seeds with one of the commercial dusts made for this purpose. An inoculant enables the bean roots to store up much more nitrogen than they otherwise would in their root nodules. Much of this is left behind in the soil for succeeding crops. (Inoculants are used only for leguminous plants such as beans, peas, etc.)

Commercial plant foods stimulate

better crops. Besides prolonging the main crop, they may force a light second crop, too. Apply the fertilizer in the ground alongside the rows, cultivate it into the soil and water afterwards. Two or three feedings at a month apart are sufficient. Apply the first feeding when

the plants are six or eight inches high.
Wife, in back seat: "Don't drive so fast, George!"
Husband: "Why not?"
Wife: "That policeman on a motorcycle behind us can't get by."

Speaker: "Homes must give up their women to the factories."
Voice (in rear of hall): "Brother, can you spare a dame?"
"Do you serve women in this beer parlor?"
"No, got to bring your own."

FOR WARTIME COOKERY

The Trend Is Back
To Lard

It is not only patriotic to use lard, it's good cookery practice and good economy. Lard goes further because of its higher fat content which is as digestible as butterfat. Lard yields virtually all of its energy value, and when you use BURNS' SHAMROCK VACUUMIZED LARD your breads, cakes and pastries will have the superb texture and delicious flavor other good B.C. cooks are achieving with this economical B.C. product. It's perfect for deep-fat frying as well.

THE WANTS OF MAN

A Message to 4 Million Canadians

"MAN wants but little here below," wrote Oliver Goldsmith.

Man's needs, he might have added, are even fewer.

Our pioneers needed no more than a few acres—a roof—a bed—food they shot or trapped or raised for themselves—a shelter for their cattle—a pen for their pigs.

But one deep-felt want meant more to them than all these needs... a yearning which drove them out of crowded Europe to our wide, free spaces.

What each of them wanted, more than anything in the world, was to be his own boss... to be the master of his fate.

Even a cottage is a castle to the man who values freedom and independence above all the sweets of life.

OUR pioneers put up a grim battle for their independence. Today we are fighting an even grimmer battle to save and hold the freedom they sought. They had faith in their own energy and enterprise, and with that energy and enterprise they built this nation.

It is being maintained because people rely on it for their individual security and comfort and peace of mind.

It is good citizenship to own Life Insurance

HITHER AND YON

Mrs. W. Tweedy, West Summerland, was a visitor in Kelowna for several days during the past week.

Mr. and Mrs. V. Coombe left on Sunday for Fernie, where the former will relieve in the Bank of Commerce for the next few weeks.

Mr. and Mrs. H. Kennedy and H. C. Cranston, Edmonton, were visitors in Kelowna on Friday and Saturday of last week, guests of the Royal Anne Hotel. Mr. Cranston and Mr. Kennedy are with the Canadian National Express at Edmonton.

P.O. and Mrs. H. Swordy, Montreal, were guests of the Royal Anne Hotel for several days this week.

Mrs. Lloyd Bassett and son, Michael, returned on Friday from a three week holiday spent at Victoria, their former home.

Engagement Announced

Mr. and Mrs. J. Smith, Richter Street, announce the engagement of their youngest daughter, Joyce Mae, to Harold Philip Hubbard, third youngest son of Mr. and Mrs. Charles Hubbard. The wedding will take place on Sunday afternoon, June 6th, at the First United Church, at three o'clock.

Mrs. Leo Gowans and baby daughter arrived from Trail on Tuesday to reside in Kelowna.

Mr. and Mrs. Max dePuyffler and family returned on Friday from a holiday spent at Little River.

Miss Jean Burt and Miss Christie Burt leave on Friday for Toronto, where the former's wedding to L.A.C. Hugh Shirreff, R.C.A.F., will take place this month.

Deputy Supreme Royal Lady E. Deane of the Order of the Royal Purple, Vancouver, paid her annual official visit to the local lodge on Monday night. While here, Mrs. Deane was the house guest of Mrs. C. E. Friend, Royal Avenue.

The Bombed Britons have an urgent appeal for another shipment to Russia. All help is greatly appreciated during the week commencing June 7th, when the Bombed Britons' room will be open. Anyone who can sew or mend is asked to turn out and help.

Miss Mary Day left on Wednesday to spend a month's holiday visiting in the East.

Miss Mabel Hall returned on Monday from two weeks' holiday spent at the Coast.

Miss Mae Tilley left on Monday to spend a two weeks' holiday visiting at the Coast.

Mrs. M. Ross left on Wednesday for Vancouver, where she will spend the next three weeks.

Engagement Announced

Mr. and Mrs. V. A. Larson announce the engagement of their youngest daughter, Pte. Vera Evelyn Larson, C.W.A.C., who is stationed at Ottawa, to Sgt. Harold Burton, eldest son of Mr. and Mrs. Anderson, Edmonton, New Brunswick. The wedding will take place on July 17th, in the United Church, Kingston, Ontario.

A no-hostess dinner party was held at the Royal Anne Hotel on Tuesday evening in honor of Miss Jean Burt, who is wedding to L.A.C. Hugh Shirreff takes place in Toronto this month. About fourteen of Miss Burt's friends were present and a lovely table lamp was given to the guest of honor by her assembled friends.

Mrs. Cyril Mossop and Mrs. C. Dilworth entertained at a miscellaneous shower last Wednesday evening, May 26th, at Mrs. Mossop's home on Ethel Street, honoring Miss Jean Burt, bride-elect of this month.

Mrs. Jan McEwen and Miss Rosemary Newton leave on Saturday to spend a two week holiday at the Coast.

A miscellaneous shower was held at the home of Mrs. W. A. C. Bennett on May 21st honoring Miss Joyce Smith, daughter of Mr. and Mrs. J. Smith Richter Street, whose wedding to Harold Philip Hubbard takes place on Sunday, June 6th.

A miscellaneous shower was held at the home of Mrs. R. S. Aikman, Rose Avenue, on Friday evening, May 28th, honoring Miss Joyce Smith, whose wedding takes place on Sunday, June 6th.

Miss M. Woods left on Friday for Kamloops.

Mr. and Mrs. W. H. Derry, Pender Street, had as their guests during the week-end their son-in-law and daughter, Mr. and Mrs. Allan Halloran, Ewing's Landing.

Mr. and Mrs. G. A. Wiseman have returned from a two week holiday spent visiting on the Prairies.

Engagement Announced

The engagement is announced of Pamela Blanche Hickman, C.W.A.C., youngest daughter of Mr. and Mrs. M. V. Hickman, Bankhead, to Gerald Herbert Bowering, youngest son of Mr. and Mrs. J. H. Bowering, Summerland. The wedding will take place in St. Michael and All Angels Church, Kelowna, on Thursday, July 8th, 1943.

Mrs. Charles E. Dore and son, Damer, of Calgary, arrived in Kelowna last week with her husband, P.O. Dore, who was a weekend guest here. Mrs. Dore plans to remain in Kelowna for the next two months and will be the guest of Mr. and Mrs. G. L. Dore, Park Avenue.

Mr. and Mrs. G. T. Wood, Calgary, were guests of the Royal Anne Hotel during the past week.

S.O. S. McQueen, Vancouver, was a guest of the Royal Anne Hotel this week.

Mr. and Mrs. D. C. Fillmore have returned from a week's holiday spent in Vancouver.

Mrs. T. M. Ryall left last week for Rochester, Minn., where she will remain for some time.

VARIETY BAND CONCERT THIS AFTERNOON

Kelowna Aquatic Ladies' Auxiliary Presents Military Band in Fine Program

A varied program of music has been arranged by the Military Band from Vernon for the Band Concert and Tea, which the Ladies' Auxiliary is sponsoring this afternoon, Thursday, at the Aquatic, at three o'clock.

The band, under the leadership of Bandmaster Gibney, will play such well known marches as "The Thunder March," "Shrine of St. Cecilia," "This concert offers the music lovers of Kelowna a fine afternoon's entertainment.

Following the concert, tea will be served in the Aquatic Pavilion and the handiwork booth will be then open for business.

All proceeds from the affair will be turned over to the Aquatic direct-ly to be expended on the construction of the new permanent pool which is now under construction. This pool will add greatly to the safety of all swimmers at the Aquatic, and especially the children.

MAN'S WORLD

Lieut. F. G. Long, Vernon, was a visitor in Kelowna during the week-end, a guest of the Royal Anne Hotel.

Capt. H. M. Simmons, Vernon, was a guest of the Royal Anne Hotel during the week.

Jack Boats left on Monday evening to spend two weeks visiting at the Coast.

Hugh Horne who has been a patient in the Kelowna General Hospital for the past few weeks is now home.

W.P.T.B. WOMAN WILL VISIT CITY SOON

Mrs. Christine White is Labor Liaison Officer and Executive Assistant to Director of Consumer Branch

Mrs. Christine White, Labor Liaison Officer of the Consumer Branch, Wartime Prices and Trade Board, will arrive in Kelowna on Monday, June 14, on a business trip in connection with the position she holds. In addition to being Labor Liaison Officer, Mrs. White is also executive assistant to Miss Byrnie Hope Saunders, Director of the Consumer Branch.

Mrs. White is said to be playing a vital part in interpreting the W.P.T.B. regulations to the public and in explaining consumer opinion to the Board itself. Her special field is in the interests of the consumer in connection with labor problems.

She came into her position as executive assistant with the backing of prominent labor leaders. She has already contacted a wide range of labor groups, has sought their advice and suggestions and has passed these on to the W.P.T.B.

She has brought labor assurance that the Board wants its ideas and now she is investigating conditions on the Pacific Coast.

Those who know her state that her warm heart, her knowledge of labor problems, her keen insight and her vision of the Canada of the future—what it can be in terms of social and economic justice and human betterment—have given the labor groups and women's organizations, alike, confidence in her.

Her policy is to provide information to labor groups when they ask for it, and at their request she has already sent out tens of thousands of pamphlets dealing with the cost of living index.

DISTRICTS UNITE TO FORM LABOR COMMITTEE

Penticton, Kaleden and Naramata Will Join Forces to Secure Labor—H. K. Whimster Placement Officer

Delegates from Penticton, Kaleden and Naramata met last week under the auspices of the Agricultural Committee of the Penticton Board of Trade and decided to form a War Agricultural Committee to secure orchard labor.

H. K. Whimster was appointed placement officer for the area and growers from the three districts will contribute to the expenses of administration of the scheme.

Everard Clarke, of Vernon, Area Supervisor for the Provincial-Dominion War Emergency Farm Labor Service, presided at the meeting and outlined the assistance that could be secured from the two governments.

Mr. and Mrs. Leo Hayes left for Victoria on Monday.

MRS. M. H. LAWSON PASSES AWAY IN HOSPITAL

Deceased Taught in City Schools For Many Years—Son Killed Overseas on Air Operations

The death occurred on Wednesday, May 26 last, of Margaret Helen Lawson, 114 Wolsley Avenue, Kel-

owna, who passed away in the Kelowna General Hospital. She was the wife of the late Henry Lawson who died 15 years ago and was also predeceased by her son Sgt. Harry Lawson, R.C.A.F., who was killed as a result of air operations overseas.

The late Margaret Helen Lawson was employed as a school teacher here for many years and had not been well since an automobile accident at the Coast some time ago. Funeral services were held last Friday afternoon with Dr. W. W. McPherson officiating.

MAY WEATHER CONTRAST TO LAST YEAR

Less Than Inch of Rain Fell During Month—May, 1942, Was Wettest on Record—Nights Were Cool But Little Frost

The weather report for May, released by Government Weather Recorder Dave Chapman, shows that the month just past was extremely dry with fairly warm days and cool nights. Only two nights in the early part of the month touched freezing point, but the mercury was down in the thirties on many nights during the month.

The absence of rain was in marked contrast to May, 1942, when the wettest May in Kelowna's history was recorded. A year ago Kelowna residents were just recovering from a deluge of 2.72 inches, which caused Mill Creek to overflow its banks and flood certain sections of the city. In the month just passed only .49 inch of precipitation was recorded, most of which fell last Sunday.

Maximum average temperature in May was 63.8 and the average minimum was 41.

Following is the detailed list of recordings during the month:

Day	Max.	Min.	Rain
1	64	42	
2	66	34	
3	64	32	
4	65	39	.08
5	61	32	
6	59	40	
7	60	33	
8	58	32	
9	54	40	.04
10	54	34	.02
11	55	37	
12	55	31	
13	54	34	
14	55	35	
15	56	38	
16	66	41	
17	72	37	
18	76	52	
19	74	42	
20	66	43	
21	60	44	.03
22	63	49	
23	72	44	
24	75	45	
25	77	53	
26	75	54	
27	69	47	
28	68	48	.11
29	68	47	.21
30	66	47	
31	63	47	
	63.8	41	.49

Make successive plantings about every two weeks, of beans, peas, radishes, beets, carrots, lettuce, spinach and sweet corn, so that you may enjoy a longer season of these favorites.

To peel an orange easily and to get the skin off in one piece, heat the orange slightly for three or four minutes before peeling.

SHELL OIL CO.'Y. PRODUCTS HELP VICTORY MARCH

High Octane Gasoline and Synthetic Rubber Only Two of Many Products Produced

Mastery of the air is vital for victory. In this important field, Shell is making one of its greatest contributions. Iso-octane, from which 100 octane aviation gasoline is made, cost \$25 a gallon nine years ago. But today, largely through Shell research, this continent has the world's largest supply of 100 octane gasoline. The development of this fuel enabled manufacturers to build aircraft engines capable of tremendous horsepower. Result? More speed, longer range and greater bomb loads for our aircraft. Planes powered by these engines, fuelled with 100 octane gasoline, fly 30 per cent faster and farther, and can climb 25 per cent quicker than those using 87 octane gasoline.

Another product on Shell's war production line is a new high-tensile, synthetic, which has exceptionally high anti-knock qualities in super-charged aviation engines. This synthetic provides a means of immediately increasing the octane of 100 octane gasoline 10 to 20 per cent through conversion of existing facilities with only a negligible use of critical materials. Information on the manufacture of this synthetic has been made available to the entire petroleum industry through the office of the Petroleum Co-ordinator for War.

Have you heard about the new "greenhouses" for airplanes? They are the usual, land-based variety, subject to annihilation by hail storms; they're light, durable, transparent plastic "bird cages" for airplanes. In the last war, flyers had little protection from the elements and, yet, permit them to look on in amazement at the bombers and fighters now have "greenhouses," and these plastic shells do an excellent job of protecting eyes from wind and weather, yet permitting them to look in every direction. The manufacture of these great, transparent globes of "daylight" was facilitated when Shell scientists found the way to produce, from petroleum, a synthetic plastic possible for the molding of these "greenhouses." Shell is now supplying manufacturers with large quantities of this extremely valuable product.

When the rubber shortage became acute, and danced from every headline, Shell technicians had already taken giant strides on the road toward synthetic rubber manufacture. For a dozen years they had studied the processes by which butadiene, the most vital material for synthetic rubber, can be made from petroleum. As early as 1933, Shell had in part-time operation a unit producing several tons of butadiene a month, which product was then supplied to rubber companies to assist them in studying synthetic rubber manufacture on a sizable production basis. As far as it is known, Shell was the first, and for a long period the only, open market supplier in this country of experimental quantities of butadiene on anything approaching this scale.

Shell is not only producing many other valuable materials for the war effort, but is doing its share in transporting vital products. An extensive pipeline system is being used continuously to convey crude oil to refineries and finished products to strategic points hundreds of miles away. Greater efficiency in the lines themselves has been achieved by development of the first and only thoroughly successful rust inhibitor. This product prevents further rusting and aids in removing rust already in the pipe line. The use of this product brought a 15 per cent increase in the life span of a pipe line transporting gasoline.

On active duty today is a miraculous rust preventing steam turbine oil—another product from Shell's production line.

Another Shell rust preventative is doing a fine job for the interior surfaces of gasoline drums, rendering them immune to rust during storage and shipment.

TUNISIA ADDS VALUABLE ORE RESERVES

Phosphates Will Give Added Impetus to War Industry

Economically the loss of Tunisia by the Nazis was expensive. It ranks third behind the United States and Russia as a producer of phosphates, French North Africa being Germany's only remaining source of phosphate rock, principal mines being located near the Algerian border around Gafsa and in the Le Kef district. Tunisia's three other principal minerals are iron ore, lead ore and zinc ore, found scattered throughout the country. Chief producing areas are in West Central Tunisia, across the border from the Tebessa region of Algeria, and the extreme northwest near the port of Tebessa.

Lead ore mined in Tunisia played a small but important role in the German industrial machine since its metallic content ranged between 60 and 70 per cent. A smelter at Mcgrine, near Tunis, treats both Tunisian and some Algerian ore. Manganese in Tunisia is of less significance. There are no coal or petroleum resources in that country. Industries are of minor importance except for the smelting and food processing plants.

Germany no longer has access to the iron ore supplies found in Algeria and Morocco. Copper is found in the Belgian Congo, lead and zinc in Algeria, tin in Nigeria and manganese in Egypt, which temporarily fell into Axis hands. From French Morocco in 1942 the Axis obtained phosphates and small amounts of molybdenum, cobalt and manganese. Tunisia not only was a vital source of minerals to the Axis, but an important source of agricultural produce, particularly wheat and barley. Marshal Rommel's Africa Corps bled Tunisia of much of its food and what remained was exported to continental Europe.

On active duty today is a miraculous rust preventing steam turbine oil—another product from Shell's production line. Another Shell rust preventative is doing a fine job for the interior surfaces of gasoline drums, rendering them immune to rust during storage and shipment.

LAKES GIVE FINE SPORT LAST WEEK-END

Many Good Catches Reported by Local and American Anglers—Dee Lake Full of Fish

Okanagan Lake anglers continued to enjoy excellent sport during the past week and those taking in district lakes found the fishing much improved.

A large number of parties were out on Okanagan during the past ten days and few returned empty-handed. Excellent results were obtained by shortening up trolling lines to 100 feet. Quite a few had good luck with No. 2 Stewart and F.S.T. spoons fishing over the bars and close to shore.

The appearance of American anglers was one of the highlights of the week. Coast fishermen were also on district lakes this week. Wallace H. McMillan, of Victoria, President of the Tyee Club, left Tuesday morning with his wife for two weeks' outing on Dee Lake and adjacent waters.

Among successful anglers on Okanagan Lake were Charles Friend and party, who made a nice catch below Okanagan Mission; Dan Hill and party, who took 29 fish ranging up to 11 pounds off McKinnley's; Nick Cremer and party, who took fish up to six pounds; H. Turner and party, who cruised the waters opposite Siwash Point.

V. Boyant, of Okanagan, Wash., had excellent sport on Dee Lake, where over thirty Americans fished the chain of lakes during the week. A. J. Fox, W. H. Price and O. A. Brown, of Omak, were among the lucky anglers. A. F. Caldwell, of Seattle, took fish up to nine pounds on Oyama Lake, using a small plug. Claire Rowcliffe and his wife reported that they had the finest fly fishing in several years on the Dee Lake chain. At present the fly fishermen are using wet fly, sinking deep, to get best results on Dee Lake. Popular flies include Royal Coachman, Parmachenee Buck, Grizzly King, Carey Special and Black Lindsay.

No. 100 COMPANY, P.C.M.R., KELOWNA RANGERS

Orders For The Week Commencing Thursday, June 3

Orderly Sergeant: Sgt. D. McMillan

Thursday, June 3.—Nos. 1 and 2 Detachments to parade at the Scout Hall with rifles and uniforms, at 7:30 p.m.

Friday, June 4.—Signallers at C.H.Q. at 7:30 p.m.

Saturday, June 5.—Company Headquarters will be open from 7:00 p.m. to 9:00 p.m.

Tuesday, June 8.—N.C.O.s Class at C.H.Q. at 8:00 p.m.

G. N. KENNEDY, Captain, Officer Commanding.

1ST RUTLAND TROOP

"Do a Good Turn Daily"

Orders for the week ending June 12

The Troop will parade on the school field on Monday, June 7, at 7:30 p.m., in full uniform, Duty Patrol: Eagles.

There was an attendance of 25 Scouts at the meeting on Monday, May 31, the Scout Patrol being particularly strong, turning out 100 per cent, with the P.L. and eight Scouts on deck. Softball was played for a while and then classes in signalling were formed and a group of other Scouts tried their "Scout's Pace." The Troop adjourned to the basement of the school later, and the new Scout catalogue was issued, a few tests passed, uniform inspected, and the Troop dismissed.

As a member of the Scouts will be leaving school after the 15th to work in the orchards, it is likely that only two more meetings will be held before shutting down for the summer months.

There was no meeting of the Troop on May 24th last, but a meeting was held on May 17th, which was taken by D. H. Campbell, in the absence of the Scoutmaster at the Reserve Army Camp in Vernon. Several Tenderfoot and Second Class tests were passed at this meeting. During the past three weeks proficiency badges have been gained by the following Scouts: Friend to Animals, D. Montgomery, N. Hush; Marksman, N. Hush; Stockman, D. Montgomery, T. Tumag and R. Spears have completed their Second Class, and Robert E. Dudgeon has passed his Tenderfoot tests.

A piece of charcoal placed in the refrigerator will absorb odors and keep the refrigerator smelling sweet.

Meatless Tuesdays

The regulation prohibiting the serving of meat dishes in public eating places on Tuesdays is not relaxed to rationed meats. No meats of any kind may be served.

Consumer Meat In Lockers

Before June 30 all consumers (including farmers) who store meat in lockers must declare in writing to the nearest Branch of the Ration Administration, the quantity of rationed meat they have stored, over and over, at \$8 lbs. per person in the household. Declarations must be accompanied by sufficient Coupons from the ration books of the locker holder and his household. Several tons of rationed meat at the rate of 1 Coupon for each 2 lbs. of meat in regulation rationed groups.

The number of Coupons to be detached by the locker holder need not exceed more than 50% of the total meat Coupons in the possession of himself and his household. Locker users may retain for retail purchasing one of each similarly numbered pair of Coupons.

Kosher Meat

The same regulations governing the rationing of other meats apply also to kosher meats.

Commercial Quota Users

Quota users who have already registered with the Ration Administration on Form RB 117, and who have been allotted a Quota Reference number, need not re-register for meat. Most quota users will have received a tentative quota for meat and therefore are in a position to issue meat ration cheques. Any quota user who has not received a tentative quota for meat, or who needs a supplementary authorization, should get in touch with the nearest branch of the Ration Administration.
